

## Types

SCS : Internship for Separate Credits

STAP : Internship Credited Within the Master's Degree Project

PDME : Master's Degree Project in a company

| Masters                    | Types | When ?<br>(earlier) | Credits               | Internship<br>duration (in<br>weeks) | PDME<br>minimal<br>duration<br>(in weeks) | Notes   |
|----------------------------|-------|---------------------|-----------------------|--------------------------------------|---|---|
| GC                         | STAP  | after BA6           | validated with<br>PDM | min. 8                               | 17  | Can be done in two periods, but in the same company   |
| SIE                        | STAP  | after BA6           | validated with<br>PDM | min. 8                               | 17  |   |
| ou                         | PDME  | PDM                 |                       |                                      | 25  |   |
| CGC - chemical engineering | SCS   | after MA2           | 30                    | 17 à 25                              | 17  | PDM will last 25 weeks, if outside EPFL   |
| or                         | PDME  | PDM                 |                       |                                      | 25  | in case of minor, the PDM will be done in a university  |
| MA - applied mathematics   | SCS   | after MA2           | 30                    | 17 à 25                              | 17  |   |
| or exceptionally           | STAP  | after MA2           | validated with<br>PDM | min. 8                               | 17  | in case of minor, the PDM will be done in a university  |
| MA - Comp. Science         | SCS   | after MA1           | 8                     | min. 8                               | 17  |   |
| PH - applied physics       | SCS   | after MA2           | 30                    | 17 à 25                              | 17  | PDM will last 25 weeks, if outside EPFL   |
| or                         | PDME  | PDM                 | validated with<br>PDM |                                      | 25  | in case of minor  |
| PH - nuclear engineering   | SCS   | au MA3              | 8                     | min. 12                              | 25  | not managed through the platform  |
| EL                         | STAP  | after MA2           | validated with<br>PDM | min. 8                               | 17  | Exceptionally from BA6 - max 12 weeks   |
| or                         | SCS   | after MA2           | 30                    | 17 à 25                              | 17  | Exceptionally from BA6 - PDM in a university only   |
| or                         | PDME  | PDM                 |                       |                                      | 25  |   |
| MES                        | STAP  | after BA6           | validated with<br>PDM | min. 8                               | 17  | Usually, after MA2  |
| or                         | PDME  | PDM                 |                       |                                      | 25  |   |
| GM                         | STAP  | after BA6           | validated with<br>PDM | min. 8                               | 17  |   |
| or                         | PDME  | PDM                 |                       |                                      | 25  |   |
| MT                         | STAP  | after MA2           | validated with<br>PDM | min. 8                               | 17  | Exceptionally from BA6  |
| or                         | PDME  | PDM                 |                       |                                      | 25  |   |
| MX                         | STAP  | after MA2           | validated with<br>PDM | min. 8                               | 17  | Exceptionally from BA6  |
| or                         | PDME  | PDM                 |                       |                                      | 25  |   |
| IN                         | STAP  | after MA1           | validated with<br>PDM | 8 à 25                               | 17  |   |
| or                         | PDME  | PDM                 |                       | 0                                    | 25  |   |
| SC                         | STAP  | after MA1           | validated with<br>PDM | 8 à 25                               | 17  | master en communication systems and master in data science  |
| or                         | PDME  | PDM                 |                       |                                      | 25  |   |
| SV                         | SCS   | after BA6           | 8                     | min. 8                               | 17  | master in life sciences and technology and master in bioengineering   |
| MTE                        | PDM   | PDM                 |                       |                                      | 25  |   |
| or exceptionally           | STAP  | after MA2           | validated with<br>PDM | min. 8                               | 17  |   |
| IF                         | PDME  | PDM                 |                       |                                      | 25  |   |
| or exceptionally           | STAP  | PDM                 | validated with<br>PDM | min. 8                               | 17  | Exceptionally. Submitted to section authorization, in case of a PDME failure or an impossibility to find a PDME |
| DH                         | SCS   | after MA2           | 30                    | 17 à 25                              | 17  |   |

NB: this document lists only master programs having internship as an exam during the master cycle.  
The architecture master is not included because the intenship is a condition of admission for this master.
