

Act I

Data Analytics @Pictet, with apero

Are you hungry for data and thirsty for learning?

If so, we'd be delighted to share with you, in three different workshops, how data are used in a financial institution:

1. Risk management: how data analytics can help prevent risk. A playground with a fraud detection sample.
2. Asset management: how data are applied to impact investing.
3. Client relationships: how data can be a key game-changer in wealth management.

During the apero you'll have a chance to mingle and chat with Pictet's specialists

Invitation:

Wednesday, 25 September,
from 17.15 till 19.00
@EPFL, room BC 410

Who's it for?

Any Master Student and
PHD Candidate who's not
afraid to crunch data

Registration:

Through cc@epfl.ch, indicating
the workshop that interests
you, in order of preference.
Deadline: 17 September
