Dive into Technologies @ Pictet, Followed by drinks

Which strategies and technologies would you apply to our daily challenges?

We'd be delighted to share with you, in three different workshops, how new technologies are used in a financial institution:

1. Machine Learning: Create your own model to identify duplicates in a system.
2. Cybersecurity: Capture the Flag!
3. Me, The Bank and Blockchain: From cryptocurrencies to Smart-Contracts

During the aperitif you’ll have a chance to mingle and chat with Pictet’s specialists.

Date and location:
Wednesday, 25 February 17.15 - 19.00 @EPFL, room TBC

Who can attend?
All Master Students and PHD Candidates interested in crunching data

Registration:
Please contact cc@epfl.ch
Deadline: 18 February
