

ACTIVITY WEEK JULY 10-14 2023

PROGRAM AND OTHER INFORMATION

My house, my garden and myself !

@Mario Trotta

During this week, we'll be taking a look at houses from here and elsewhere, different shapes, and what we know and can do for the environment around the habitation.

We'll be dreaming up our ideal city or neighborhood, putting our ideas into the form of models to be built individually or collectively.

You'll also be able to build endless huts and explore some of Lausanne's architectural sites!

The whole team is looking forward to welcoming you for a week full of imagination, creativity and good times.

A quiet time takes place after lunch, with a short story, massage and relaxation workshop. Your children can bring their own books or materials (cuddly toys, pillows, blankets).
