Speed dating

Rules & Go [~30 min]

- Each 3', all participants are assigned to random rooms, in couples!
- Same couplings might happen (probability ... odds ... fate? 😊)
- Make "embarrassing" questions or comments on data/code
- At the end, all participants go back to the main room...

... and you'll see

The background of the slide is a photograph of a modern building at night. The building features a curved facade with large glass windows that are illuminated from within, showing interior spaces with tables and chairs. The building is set against a dark sky, and the foreground shows a body of water with some lights reflecting on it.
