LEGEND

Not Compatible	Store according to SDS Section 7 and 10	Compatible
-------------------	--	------------

Explosive chemicals and compressed gases can not be stored with any other chemicals

Separate liquids and solids

Chemicals that ONLY have these pictograms can be stored outside of the ventilated storage area.

In case of multiple hazard pictograms the following order should be considered

Note that two chemicals can have the same pictogram and still be incompatible!

Example: Acetic acid and triethylamine are both flammable, but cannot be stored together because they are an acid and a base.
