

Welcome

Stéphane Karlen, PhD
Head of the Occupational
Health and Safety

Meeting CoSec
7 février 2023

Thank you for participating

Your contribution is priceless

Rôle and tasks defined in the DSST

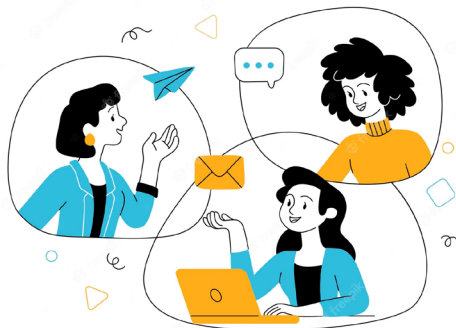

Described during the COSEC training:

- Communicate **safety information to unit** personnel.
- Communicate **safety information to OHS**.
- Inform OHS of **safety related problems and incidents**.

- Identify the complementarity between the 2 groups:
 - identify the activities where there are interactions between the 2 groups (why, how...)
 - for each activity, define the owner/leader and the support...
- Exemples:
 - Audit: lead OHS, support COSEC.
 - Risk analysis: lead cosec, support OHS
 - Accident analysis: Lead OHS, support COSEC
 - Implementing corrective action: together

Alignment of the specifications with the new version of the LEX; objective: complementarity

The newsletters are sent only to the COSECs of the units.

Important to pass on information to your colleagues

Ongoing discussion with Mediacom for better coverage

This course counts as one unit
(half day) of continuing education
For example, by the Swiss Society
for Occupational Health
