Main features of the IP Phone 8945
Phone screen

Shows information about your phone.

Camera

Allows you to make a point-to-point video call with another Cisco IP phone or with Jabber softphone.

Lens Cover button

Hide the camera lens.

Softkeys buttons

Allow you to access the softkey options (for the selected call or menu item) displayed on your phone screen.

Navigation Pad and Select button

The two-way Navigation Pad allows you to scroll through menus, highlight items, and move within a text input field.

The Select button (center of the Navigation Pad) allows you to select a highlighted item as well as wake up the phone from deep sleep mode.

The Select button is lit (white) when the phone is in power-save mode.

Conference button

Creates a Conference call.

Hold button

Places a connected call on Hold.

Transfer button

Transfers a call.
**Redial button**

Redials a call.

**Keypad**

Allows you to dial phone numbers, enter letters, and choose menu items (by entering the item number).

**Speakerphone button**

Selects the **Speakerphone** as the default audio path and initiates a new call, picks up an incoming call, or ends a call. During a call, the button is lit green.

The **Speakerphone** audio path does not change until a new default audio path is selected (for example, by picking up the handset).

If a headset is connected, the **Speakerphone** button selects them as the default audio path.

**Video Mute button**

Mutes the video from the phone screen during a video call. When Video Mute is on, the **Video Mute button** is lit red.

**Mute button**

Mutes the video from the phone screen during a video call. When Video Mute is on, the Video Mute button is lit red.

**Headset button**

Selects the **Headset** as the default audio path and initiates a new call, picks up an incoming call, or ends a call. During a call, the button is lit green.

A **Headset** icon in the phone screen header line indicates the headset is the default audio path. This audio path does not change until a new default audio path is selected (for example, by picking up the handset).

**Volume button**

Controls the handset, headset, and speakerphone volume (off hook) and the ringer **Volume** (on hook).

Silences the ringer on the phone if an incoming call is ringing.
**Messages button**
Auto-dials your **Voicemail** system.

**Configuration button**
Opens the **Configuration** menu.
Use it to access applications such as call history, preferences, administrator settings, and phone information.

**Contacts button**
Opens the **Contacts** menu.
Use it to access **corporate directory**.

**Line buttons**
Each corresponds with a phone line, speed dial, and calling feature.
Pressing a button for a phone line displays the active calls for that line.
Color LEDs indicate the line state:
- **Yellow:** – Ringing call on this line
- **Green:** – Active or held call on this line
- **Red:** – Shared line in-use remotely

**Handset rest**
To rest the phone handset.
When there is an incoming call, the **LED in the handset rest flashes red**.
If there is a new voice message, the **LED is lit red**.
