

GLOBAL SUPPLY CHAIN MANAGEMENT

CERTIFICATE OF ADVANCED STUDIES

Short Course
Part-time
14 ECTS Credits
14 days

Gain a deep understanding of the key concepts of Global Supply Chain Management and its premier role in the future of Business, Society and our Environment.

GLOBAL SUPPLY CHAIN MANAGEMENT HAS EVOLVED TO BE AT THE FOREFRONT OF BUSINESS TODAY

The need for professional expertise in the area of Supply Chain Management will continue to increase as Growth, Innovation and Sustainability goals will concretely be met by the people in the diverse spectrum of roles along the complete Supply Chain, now often referred to as the Value Network.

Global Supply Chain Management starts at raw materials sourcing and ends at servicing the end customer and recycling. It is a cross-departmental domain at the very heart of the business and the innovative changes to come. It is critical for businesses to prioritise professional development in this fast changing area.

A STUDY PROGRAM EVOLVING TO MEET BUSINESS NEEDS

The Executive Certificate in Global Supply Chain Management has been designed to provide all participants with the knowledge, the competence and confidence necessary to manage the supply chain effectively and efficiently from a strategic, tactical and operational perspective.

The participants will develop a broad global supply chain management understanding based upon technical, economic and managerial knowledge.

LEARN WITH ACADEMIC AND INDUSTRY EXPERTS

IML is unique in offering young and senior executives a Supply Chain education from World-renowned Academic Research Professors from internationally renowned Universities for both Technology and Business.

Equal importance is placed on learning from Senior Management Professionals at our partner organisations, which include many International Corporations and young companies, born at the EPFL Innovation Park.

Company visits bolster the learning experience

THE IML LEGACY

IML, originally called the International Institute for the Management of Logistics, was created in Lausanne in 1990 and in Paris in 1995 as a partnership between the École Polytechnique Fédérale de Lausanne (EPFL), the École des Ponts ParisTech, the group AFTRAL, and a large number of industrial and service companies. Today IML has also partnered with HEC Lausanne and several other international universities.

IML is based at the College of Management of Technology of EPFL and is trusted and highly regarded by Industry in Switzerland, France and Internationally.

ABOUT IML COURSES

The IML Executive Masters and Certificates of advanced studies are conferred by the École Polytechnique Fédérale de Lausanne, one of Europe’s most prestigious Universities, renowned for its Technology Innovation and Research & Development.

Courses are open to executives and future executives specifically interested in supply chain management; previous management experience is required. See iml.epfl.ch

The Certificates are awarded 14 ECTS points (European Credit Transfer and Accumulation System).
