Master of Science in
MATERIALS SCIENCE AND ENGINEERING
2-year program - 120 ECTS

Specialization:
Students may validate the "Materials research and development" specialization by choosing 30 ECTS in the optional courses group.

Career prospects
A Master's degree in materials science and engineering is the gateway to careers in a wide variety of industries ranging from the production of materials to the manufacturing of finished products such as watches, sports equipment, aeronautic, foods, metallurgy, automobiles, electronics, and multimedia. It also provides an ideal training for the innovative application of advanced materials in areas such as bio- and nanotechnology as well as a strong basis for those who wish to pursue a PhD degree in Materials Science or a related field.
