Master of Science in **MICROENGINEERING**

2-year program - 120 ECTS

The program includes a compulsory 8-week internship which can be extended to 6-month and combined with the Master’s thesis.

Students may choose a 30 ECTS minor within the optional courses. Recommended minors with this program:
- Biomedical technologies
- Computational science and engineering
- Energy
- Internet of Things
- Management, technology and entrepreneurship
- Photonics
- Science, technology and area studies
- Space technologies

---

**Industrial internship**

The program includes a compulsory 8-week internship which can be extended to 6-month and combined with the Master’s thesis.

Students may choose a 30 ECTS minor within the optional courses. Recommended minors with this program:
- Biomedical technologies
- Computational science and engineering
- Energy
- Internet of Things
- Management, technology and entrepreneurship
- Photonics
- Science, technology and area studies
- Space technologies

---
