Master of Science in ENERGY SCIENCE AND TECHNOLOGY

2-year program - 120 ECTS

Master's thesis 30 ECTS
Common core courses 24 ECTS
Complement and optional core courses 20 ECTS
Project in social and human sciences 6 ECTS
Semester project 10 ECTS
More options or project 9 ECTS
Orientation 21 ECTS

Students must choose 21 ECTS of optional courses in one of these three orientations:

A Energy conversion devices
B Energy systems
C Energy management and sustainability

Entry requirements

Candidates should have a Bachelor's degree from a reputable university and excellent academic performance. The strong interdisciplinary character of the Master's degree in Energy Science and Technology is reflected in the fact that the program is open to a wide range of Bachelor's degree holders in applied sciences and engineering, including but not limited to electrical, mechanical, environmental sciences and engineering.
