Courses are taught by professors on the campuses of UNIL, IMD and EPFL, thus bringing together the expertise of three complementary academic institutions of international excellence.

Graduates will therefore receive a Master of Science in Sustainable Management & Technology degree delivered jointly by UNIL-HEC, IMD and EPFL. Please note that this degree is not equivalent to an Engineer degree.

Career prospects

Graduates will be able to lead teams in multiple disciplines and solve complex problems in different organizations (corporations, start-ups, NGOs). They will also be ready to take non-traditional positions and pursue their ideas as entrepreneurs, by integrating sustainability largely defined in their core activities.

Admission requirements

A Bachelor's degree obtained either in an engineering field (e.g. from EPFL or an equivalent technical university) including some credits in management/economics, or in management/economics (e.g. from UNIL - HEC or an equivalent business or economics faculty) including some credits in data science, statistics, econometrics or quantitative methods, with a minimum average grade of 4.5 or equivalent over the entire Bachelor's program. Holders of a degree from a Swiss University of Applied Sciences, i.e. HES/FHS, are not eligible. For more information concerning those requirements, please contact master@e4s.center
