IS-Academia Guidelines

Jury Proposal
for the Oral Exam
In the first stage, you are required to enter all the information with regard to the organization of your oral exam.

Once you have completed this step, please print and sign your jury proposal, have it approved by your thesis director (and, where applicable, by your thesis co-director) and hand it in to the administration of your doctoral program.

### Thesis Title

Your thesis title will be used by different parties in the process of the defense (thesis printing, library indexing). Sometimes these tools are unable to correctly use or display special characters. It is thus important to have at least two distinct titles in order to make sure that the initial meeting is kept in all situations.

The title will also be used in the invitation to the jury members as well as any communication related to the oral exam. Once validated, the title cannot be modified. Corrections could be added after the oral exam.

The title is required, it should be complete in order to be used by library indexing tools.

If you do not have a co-director, leave these fields blank.

If you have a co-director, these fields are mandatory.
