

WORKSHOP 01. - 05. FEB. 2016

YOUTH FOR REUSE

EVALUATION OF SUSTAINABILITY or THE SECOND LIFE OF THE IOC HEADQUARTERS

Organized by ARCHIZOOM & EPFL_EAST in collaboration with ROTOR Brussels & AFF architects Berlin

THEME

'Reduce, reuse and recycle' affects all levels in the economical, social and cultural spheres. The deconstruction of the IOC Headquarters offers a privileged case-study to evaluate contemporary strategies of sustainability in architecture. The workshop will have a special focus on the potential application of reuse materials for the Youth Olympic Games 2020 in Lausanne.

OUTCOME

Sharing the knowledge of professionals. Evaluation of re-use material. Finding successful shifts in value from waste to recyclable to reusable. Creating a market for reused materials. Scout clients and projects. Mock-ups of deconstructed elements to study the potential value.

FINAL PRESENTATION

Exhibition of the results at ARCHIZOOM / Forum d'Architectures de Lausanne

GUESTS

OMA, Pastellini Laperelli (request)
3XN Architects, Copenhagen
