Synergistic Activities

1. I am a member of the technical programme committee for the Topological Data Analysis and Its Application for Medical Data Workshop at MICCAI 2021.
2. I am a co-organizer of the Theoretical Biology Network in Western Switzerland, where we organize seminars and outreaching events to build a community of researchers working on diverse topics in mathematical and theoretical biology in Western Switzerland.
3. I co-organized the Young Topologist Meeting 2019, a conference to promote research and collaborations among PhDs and Postdocs in topology.
4. I co-organized the Workshop on Topology and Neuroscience, a three days workshop to enhance the research in the intersection of topology and neuroscience.
5. I co-supervised four bachelor projects and one master project in applied topology at EPFL.
