

Education

- Senior Researcher, Institute for Environmental Research & Sustainable Development, National Observatory of Athens (2019-now)
- Post-Doctoral Fellow, IERSD, National Observatory of Athens (2015-2018)
- Post-Doctoral Fellow, School of Earth & Atmospheric, Georgia Institute of Technology (2013-2015)
- PhD, Environmental Chemical Processes Laboratory, Department of Chemistry, University of Crete (2005-2009)
- DEA, Université Paris 7-Denis Diderot (2003-2004)
- B.Sc. Department of Chemistry, Aristotle University of Thessaloniki (1998-2003)

Previous Research

- Chemical composition of aerosols
- Non-methane hydrocarbons in the Eastern Mediterranean
- Impact of aerosol on cloud formation
- CCN activity in Eastern Mediterranean

Current Research Interests

- Aerosol measurements in different environments
- Aerosol activation to CCN and droplets
- Bio-aerosol
- Sources of carbonaceous aerosol
- Greenhouse gases in urban environments
- Reactive Oxygen Species
