

Total Syntheses of (-)-Tetrapetalone A

Heemal H. Dhanjee, Yutaka Kobayashi, Jonas F. Buergler, Travis C. McMahon, Matthew W. Haley, Jennifer M. Howell, Koichi Fujiwara, and John L. Wood*

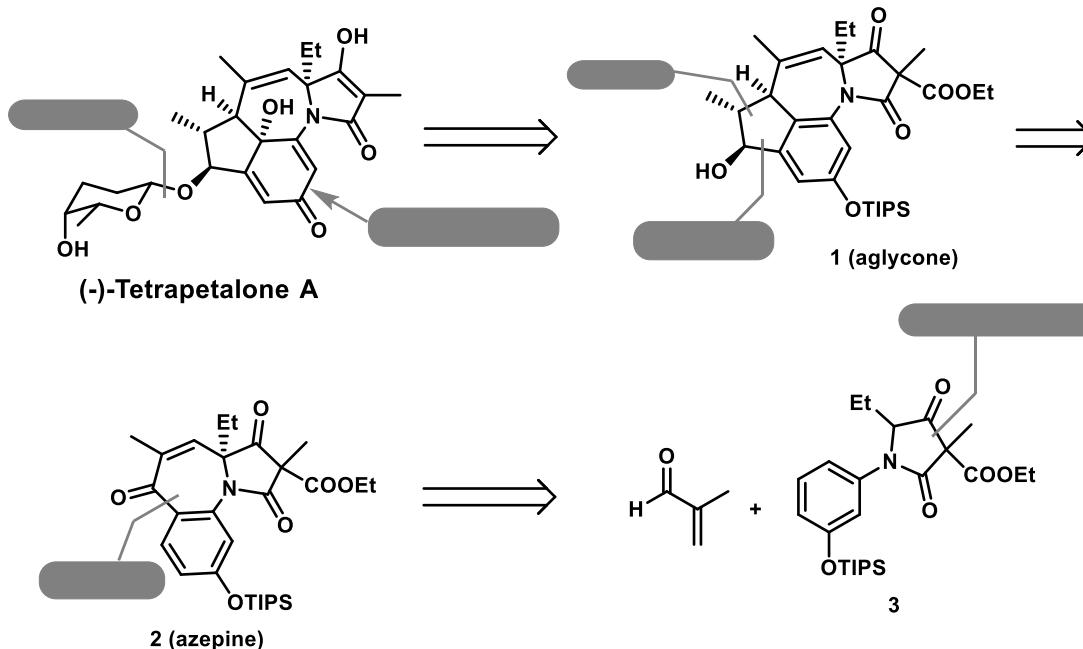

a) Isolated from Streptomyces sp. in 2003 by Hirota and co-workers.

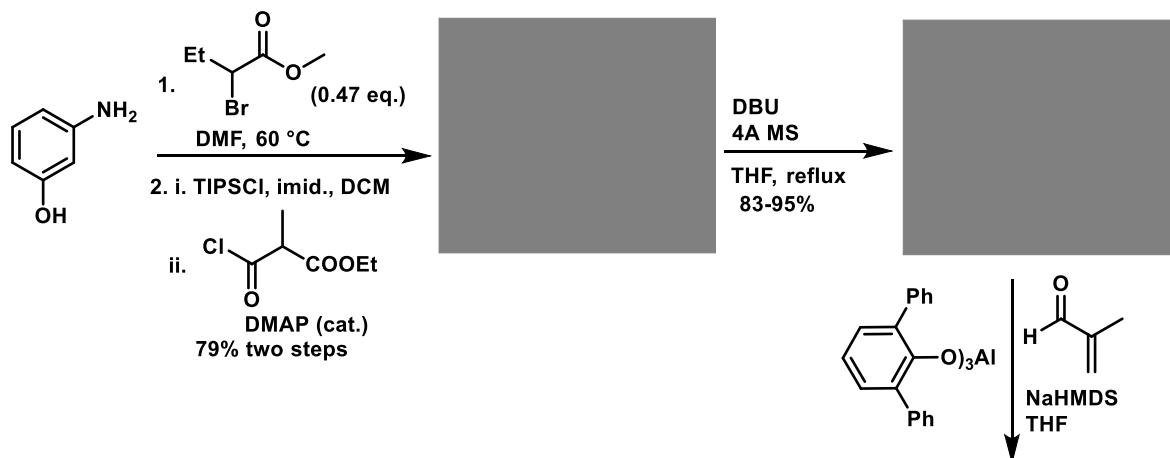

b) Hong (2009), Sarpong (2010), Porco (2014), Pettus (2014) and Frontier (2014) groups also worked on Tetrapetalones syntheses.

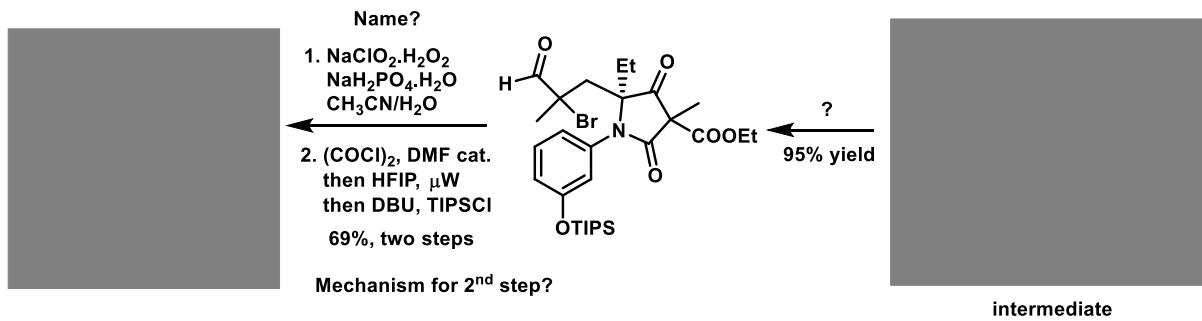

J. Am. Chem. Soc. 2017, 139, 14901–14904.

1. Retrosynthetic analysis

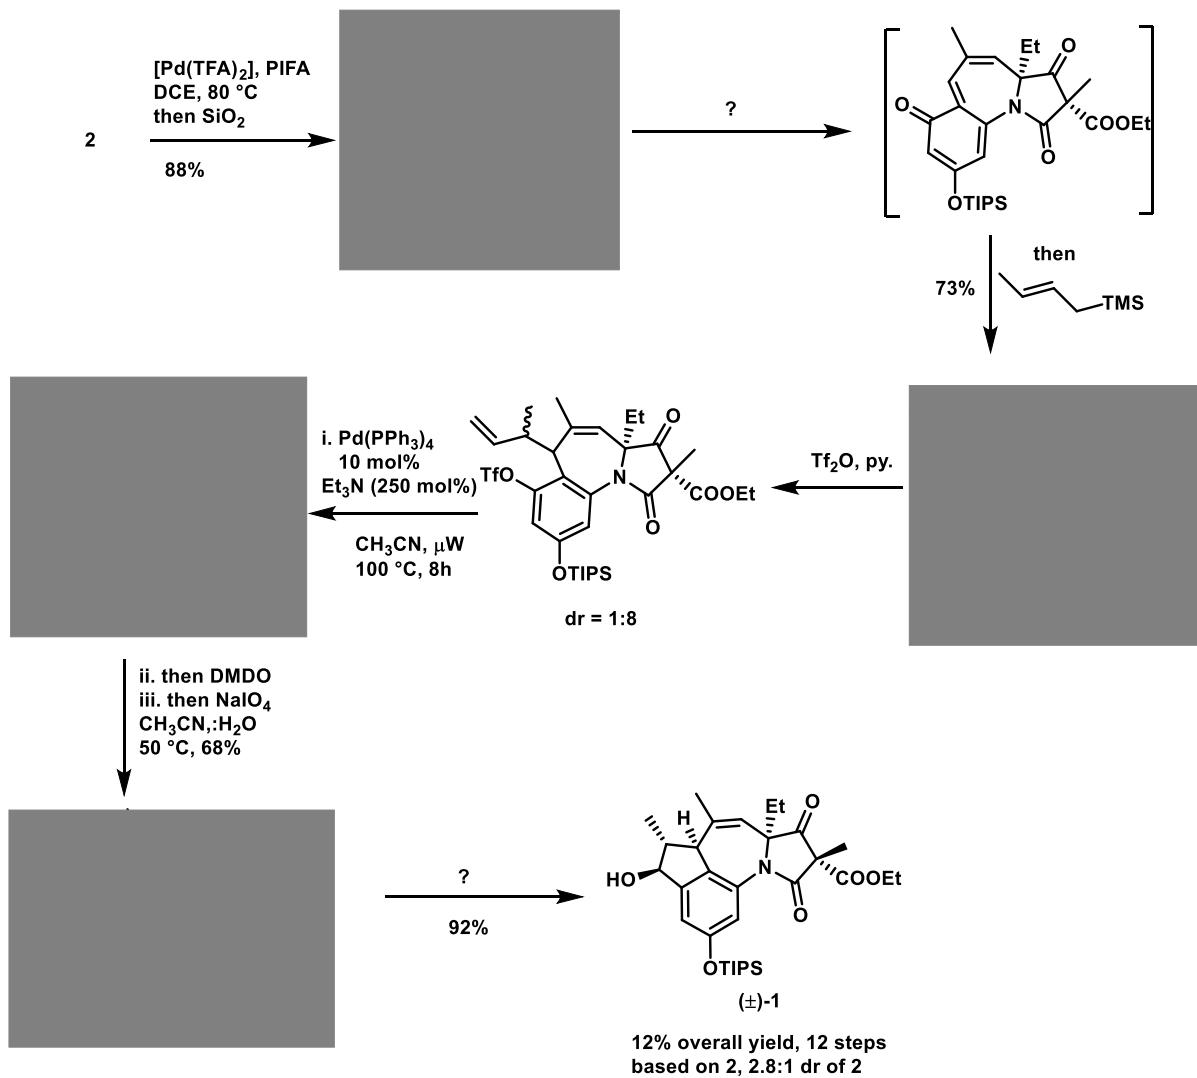

2. Synthesis of 3 and 2

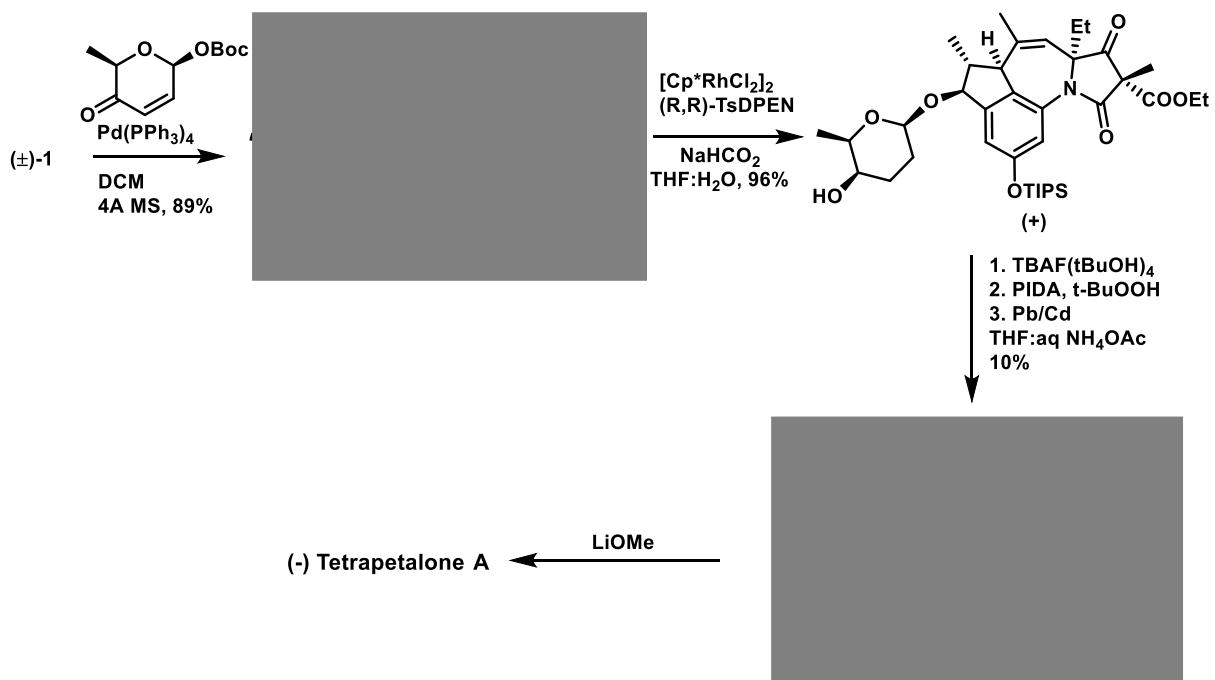

3. Synthesis of 1

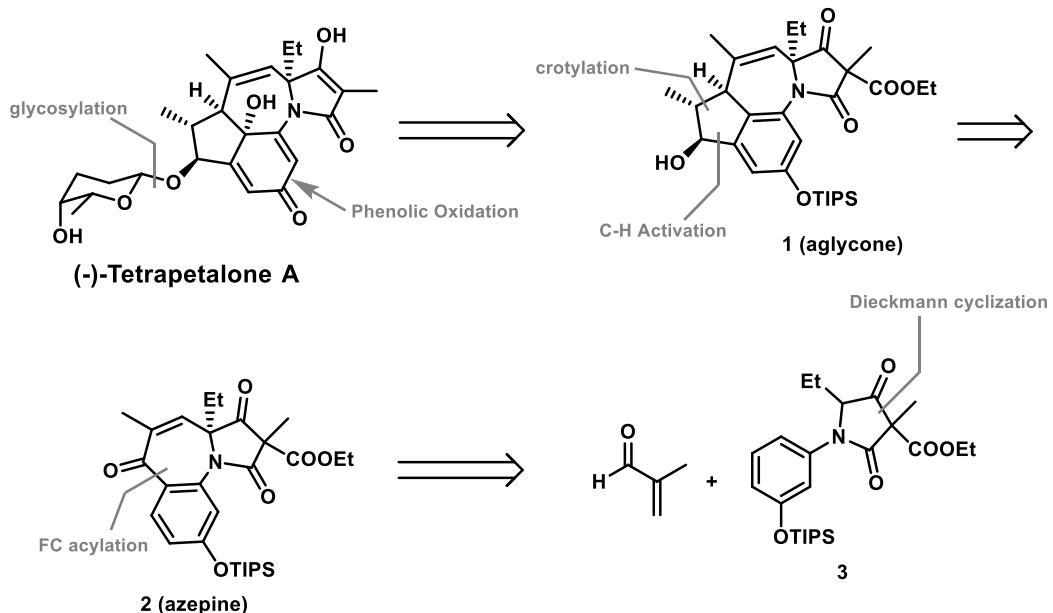

4. Synthesis of (-) Tetrapetalone A (If time allow)

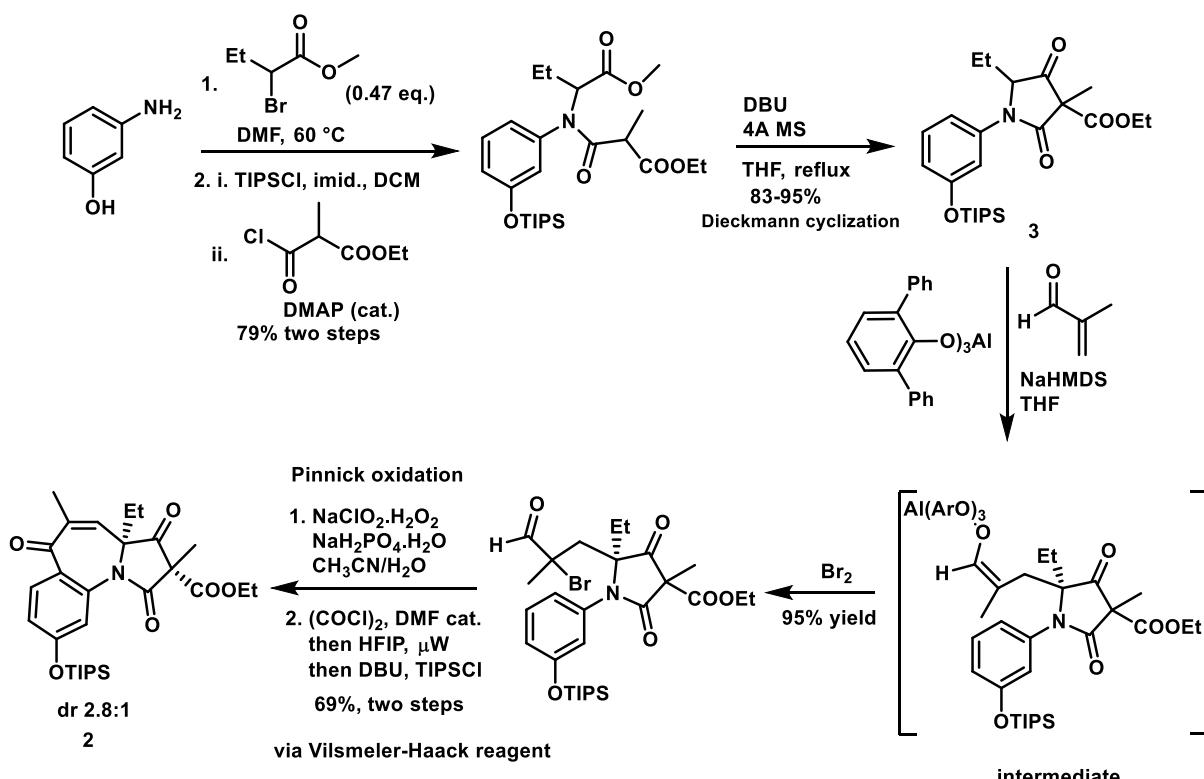

Solution

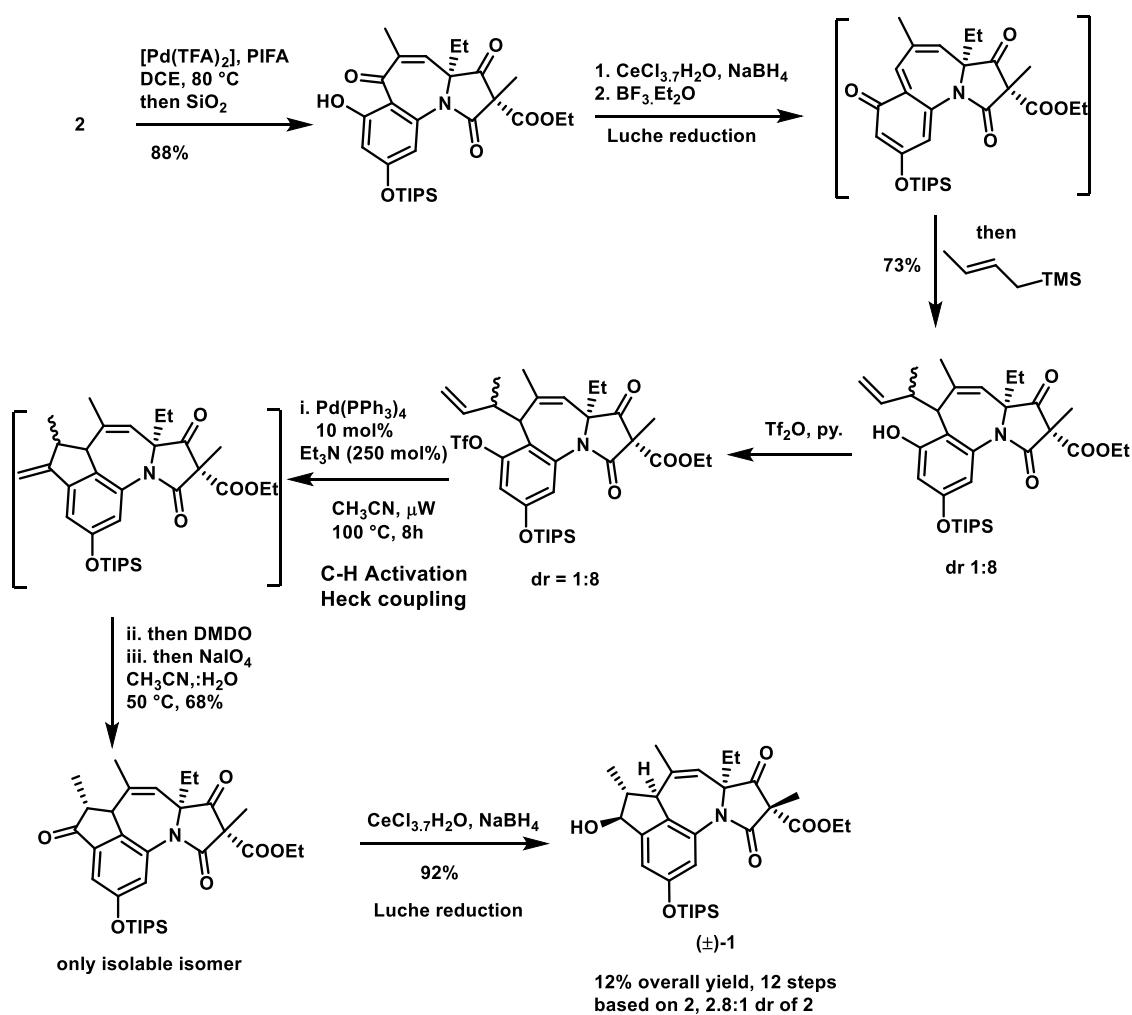

1. Retrosynthetic analysis

2. Synthesis of 3 and 2

3. Synthesis of 1

4. Synthesis of (-) Tetrapetalone A (If time allow)
