

Total synthesis of C18-Norditerpenoid Alkaloid (±)-Neofinaconitine

David Y. Gin* and co-workers *JACS* 2013, 135, 14313 (* deceased in 2011)

Molecular Pharmacology & Chemistry Program, and Tri-Institutional Research Program, Memorial Sloan-Kettering Cancer Center, New York

Only few syntheses exist.

Targeted so far:

C18-Norditerpenoids:
ex. **Neofinaconitine**

Attention: step (a) gives a mixture of regioisomers and occurs contrasterically
