

Guidelines for application of project, internship, and thesis project of master students

There are many applications from EPFL master students for various projects in the group to fulfill the requirements of their study plan. There are always more applications than we can host. Please following the following instructions for your application.

1. When you apply, please clearly state your **research interest**, your **previous research experience** (it is OK if you don't have any; just say it), and include **your resume** as well as your available **transcripts** (from BS and above; including partial transcript).
2. Describe the type of project you want to conduct. Because you will be mentored by a PhD student who has his/her own projects, a flexibility in time arrangement is often required.
