

Bubbles in ZERO-G:

From Cavitation damage to cavitation healing

Discover how microgravity helps unraveling the power of cavitation bubbles to pave the way for revolutionary medical applications...

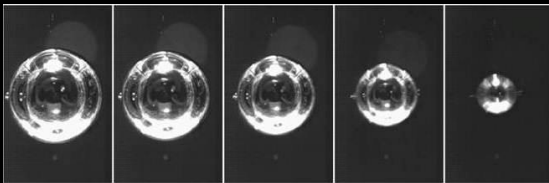

Visit us in the Airbus A300 ZERO-G @ Static G

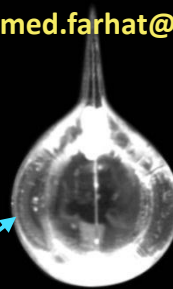

For the press: Tu & We 14:00-15:00 (in presence of the EPFL team)*

* please announce your venue to mohamed.farhat@epfl.ch

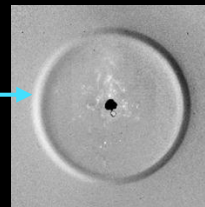

The collapse of a perfectly spherical bubble in zero g releases:

< 1 ms

Needle-jets

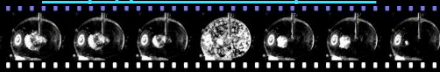

Explosive shock waves

Heat and light

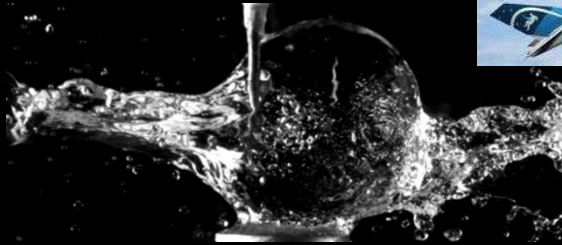

<http://bubbles.epfl.ch>
