

Swissquote Conference 2018 on Machine Learning

David L. Shrier (University of Oxford)

Title: The Ethics of AI

Abstract: Financial services is enjoying a new renaissance with the ability to extend services to the billions of underbanked and unbanked people in the world, and adapt better to customers in developed markets through synergistic AI. However, with new technologies come unintended consequences. How can we ensure the ethical application of machine learning and other artificial intelligence technologies to financial services?
