

Guide Wordpress News Channel Integration. Each laboratory or group publishes articles on its channel (publications, awards, nominations) and integrates this content into its webpages. It is recommended to publish 2 to 4 news per year ([see help page](#)). EPFL Architecture may also relay this content on the [Architecture channel](#) and on Instagram to increase its visibility. Your news channel can be made accessible from your website in two ways, Option 1 or Option 2.

Wordpress News Channel

Option 1 - Display news on your webpage : Use a plugin to display your news channel on your webpage ([example](#)). To make your channel appear in the list, you must publish at least one news.

Option 2 - Add a link to your news channel in your website menu : (A) Go to the wordpress dashboard, then *Appearance > Menus*. (B) in *Add menu items*, select *Custm Links*, enter your news channel *URL* and add the *link text*. Drag the menu item to the desired position in your menu.
