REGISTRATION FORM

Deadline to register: end of the 1st semester of the Master program

STUDENT’S PERSONAL INFORMATION

Last name: ...........................................................................................................................................

First name: ........................................................................................................................................

SCIPER: ..............................................................................................................................................

Email address: .....................................................................................................................................

Section: ................................................................. Current semester: ......................

I register for the Minor in:

☐ Biocomputing

☐ Computer science

☐ Communication systems

☐ Cyber security

☐ Data science

Minor advisor: ........................................................................................................................................

Date: ................................................. Student’s Signature: ...........................................................

Form to be completed and submitted to eileen.hazboun@epfl.ch before the end of the 1st semester of the Master program.

After having obtained the minor advisor’s approval, please send a copy of the registration form to the administrative office of your section of origin, and enroll for the minor on IS-Academia.
List of courses approved by the Minor advisor:  ..............................................................................................................................................

Date: ........................................................................................................ Signature: ........................................................................................................

Please note that courses already taken as part of the Bachelor or Master degree cannot count a second time as part of the minor.

In case of further changes in your choice of courses, please send an updated form to: eileen.hazboun@epfl.ch.
Optional Project – 8 credits

If you choose to do an optional project as part of your minor (only in Computer science, Data science and Communication systems), please provide the information below.

Important:

- Registration in IS-Academia upon the Section’s authorization
- Only for students in the 2nd year of their Master program

List of authorized supervisors / labs for:

- Computer science: go.epfl.ch/IC-projects-labs-CS
- Data science: go.epfl.ch/IC-projects-labs-DS
- Communication systems: go.epfl.ch/IC-projects-labs-SC

Note: If you have identified a project and the Professor is not included on the lists of authorized supervisors above, please provide an abstract. If your project proposal is accepted by the section, you will receive the form signed, otherwise we will contact you for a new project proposal.

Project’s title: …………………………………………………………………………………………………………………………………………

Name of the Laboratory: ……………………………………………………………………………………………………………………………
