

COVID Recommendations

COVID-19 is still amongst us and infections spread easily.

While no COVID measures are in place at the Canton de Vaud at the moment, we rely on 20th Celebration and Alumni reunion participants to protect themselves and others and recommend the following:

- Please consider wearing a face mask (FFP2 or surgical mask) where distancing is not possible.
- Regularly disinfect your hands with the sanitizer available at the conference centre, and cough/sneeze in your elbow.
- If you have any symptoms, please immediately refrain from attending the event or related activities.
- In case symptoms appear, [you can make an appointment for a free test on the EPFL campus.](#)
- Check your travel insurance covers for any costs relating to a COVID-19 infection.

We are looking forward to a wonderful 20th Anniversary Celebration and appreciate your understanding!
