Installation for Chrome

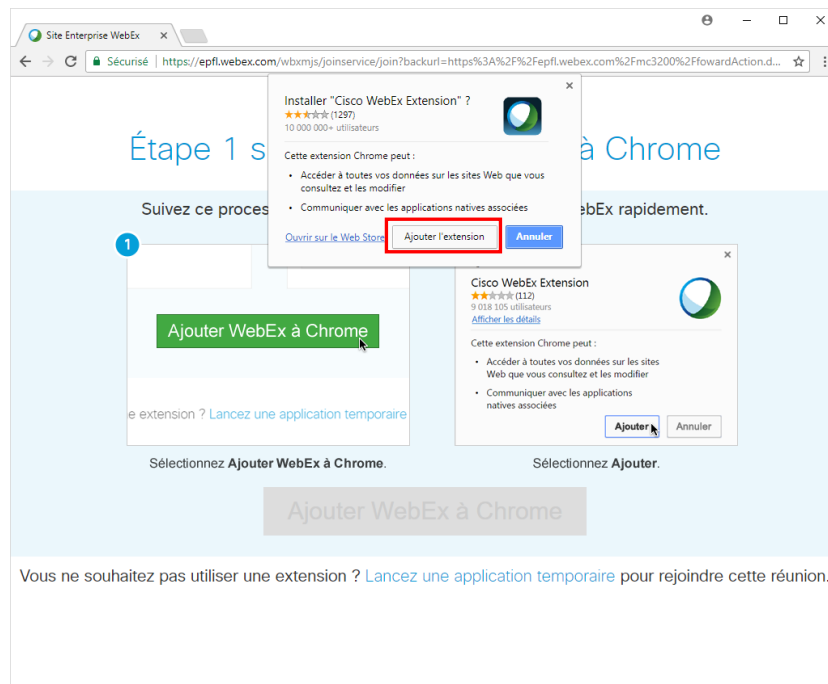

In this webpage enter your Name and email address, and click on the button to join the meeting.

The screenshot shows the WebEx meeting page for a meeting titled "test chrome". The page includes a header with the Cisco WebEx logo and a "Connexion" link. The meeting details show it is on Thursday, October 5, 2017, at 13:55, with a duration of 1 hour. The organizer is "EPFL Webex". Below this, there are input fields for "Votre nom" and "Adresse électronique", both of which are highlighted with a red rectangle and a circled "1". Below these fields is a "Rejoindre" button, also highlighted with a red rectangle and a circled "2". At the bottom, there is a copyright notice for 2017 Cisco and links to the "Déclaration de confidentialité" and "Conditions d'utilisation".

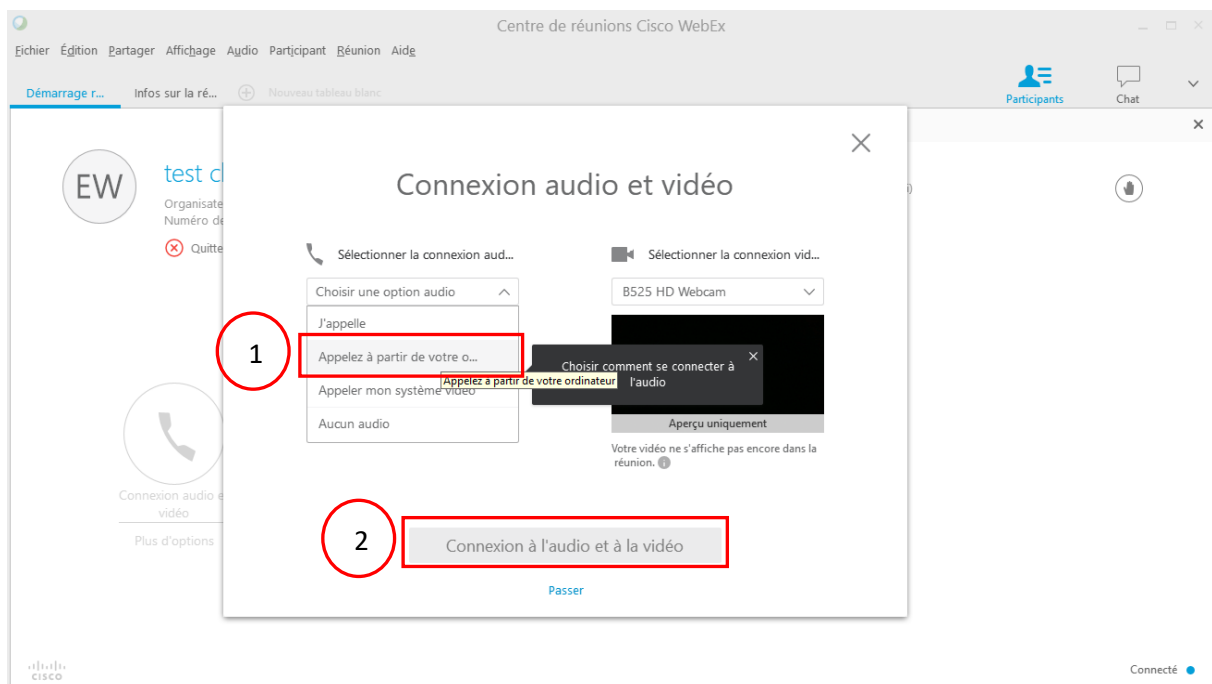

Click the button to add the Webex add-on to your browser.

The screenshot shows the "Étape 1 sur 2 : Ajouter WebEx à Chrome" page. It instructs the user to follow a unique process to join WebEx meetings quickly. The page is divided into two main sections: "1" and "2". Section 1 shows a button labeled "Ajouter WebEx à Chrome" which is highlighted with a red rectangle. Section 2 shows a Chrome extension installation window for "Cisco WebEx Extension" with a rating of 4.1/5 and 9,018,105 users. It lists permissions: "Accéder à toutes vos données sur les sites Web que vous consultez et les modifier" and "Communiquer avec les applications natives associées". The "Ajouter" button in this window is also highlighted with a red rectangle. At the bottom of the page, there is a link to "Lancer une application temporaire" for users who do not wish to use the extension.

Click on the button “Add extension”.

Select the option “Call from my computer” and click on the button “Connect Audio and video”.

It's very important to connect the audio, or you wouldn't be able to hear the meeting.

Installation for Safari

In this webpage enter your Name and email address, and click on the button to join the meeting.

Click the button to download the add-on.

Step 1 of 2: Download the Cisco WebEx add-on

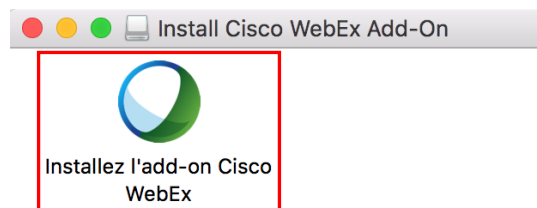

Download the WebEx add-on to join all WebEx meetings quickly.

Download

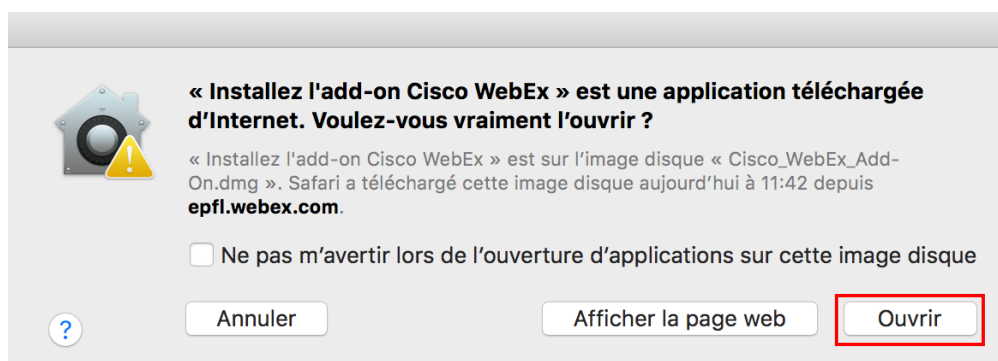

Open the file you downloaded.

Double click on the Add-on to install it.

If you are asked to allow the add-on, click on "Open".

Click on “Install”.

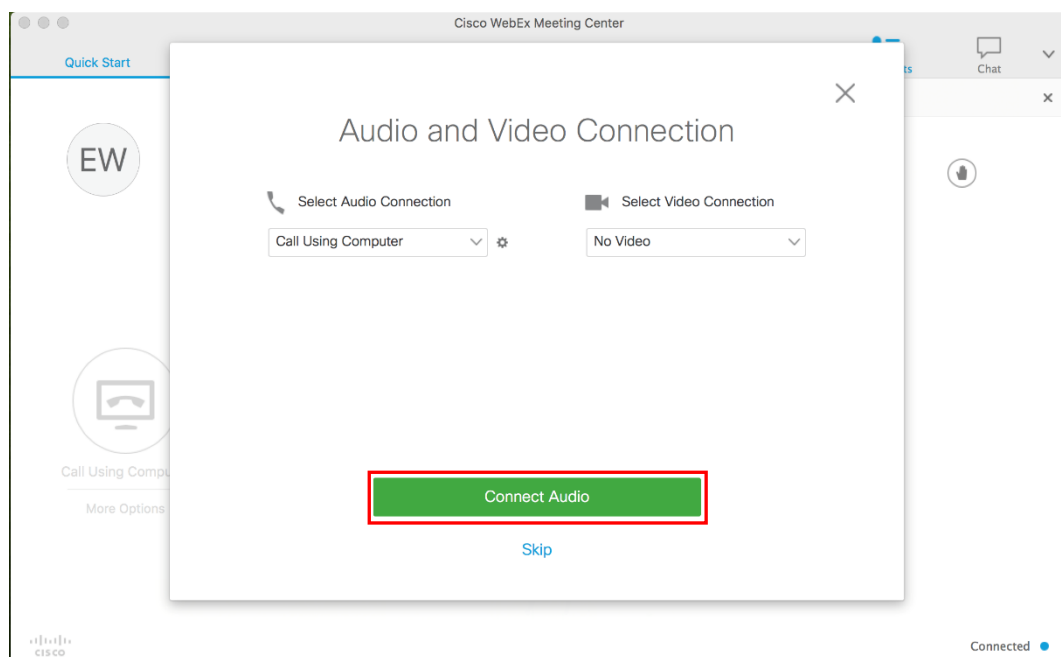

Once the add-on is installed, Cisco Webex should start.

To hear the meeting you have to connect audio

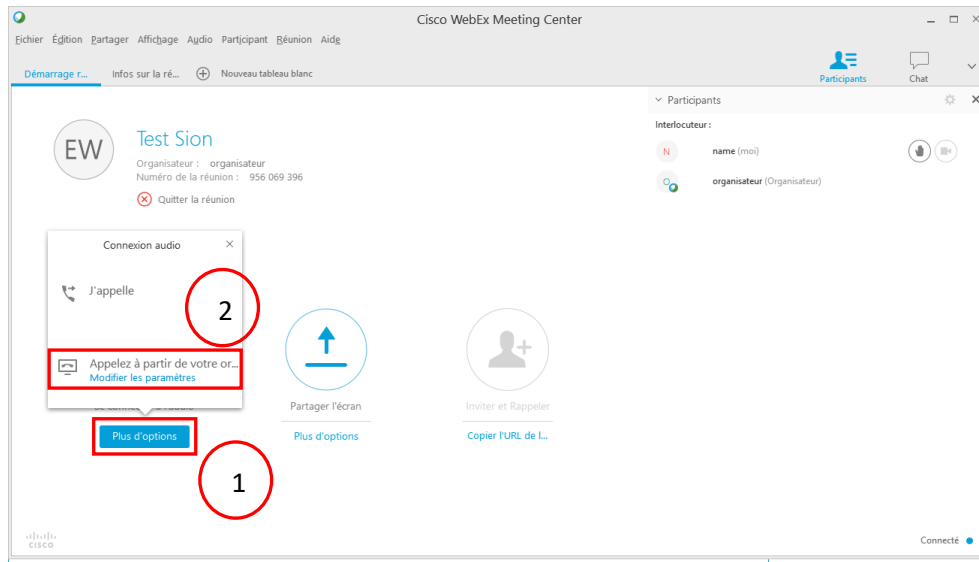

Click on “Connect Audio”.

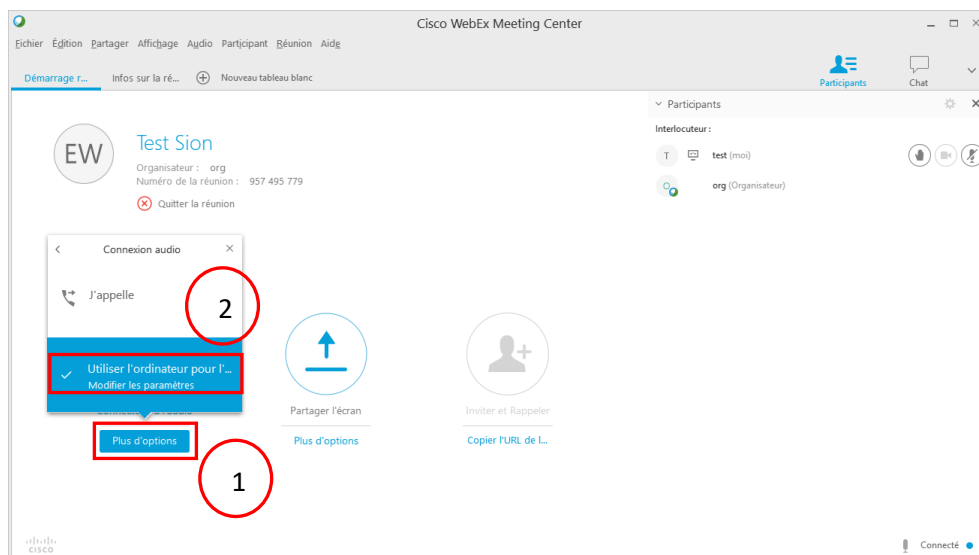

Enable audio (Firefox and Internet Explorer)

Once you have installed the add-on for your browser, you will see this window.

To enable audio, click on the button "More option" and select "Call from my computer".

If you want to change the audio output, clique on the button "More option" and select "Change setting".

Select your preferred audio output.
