Installation of Webex on macOS

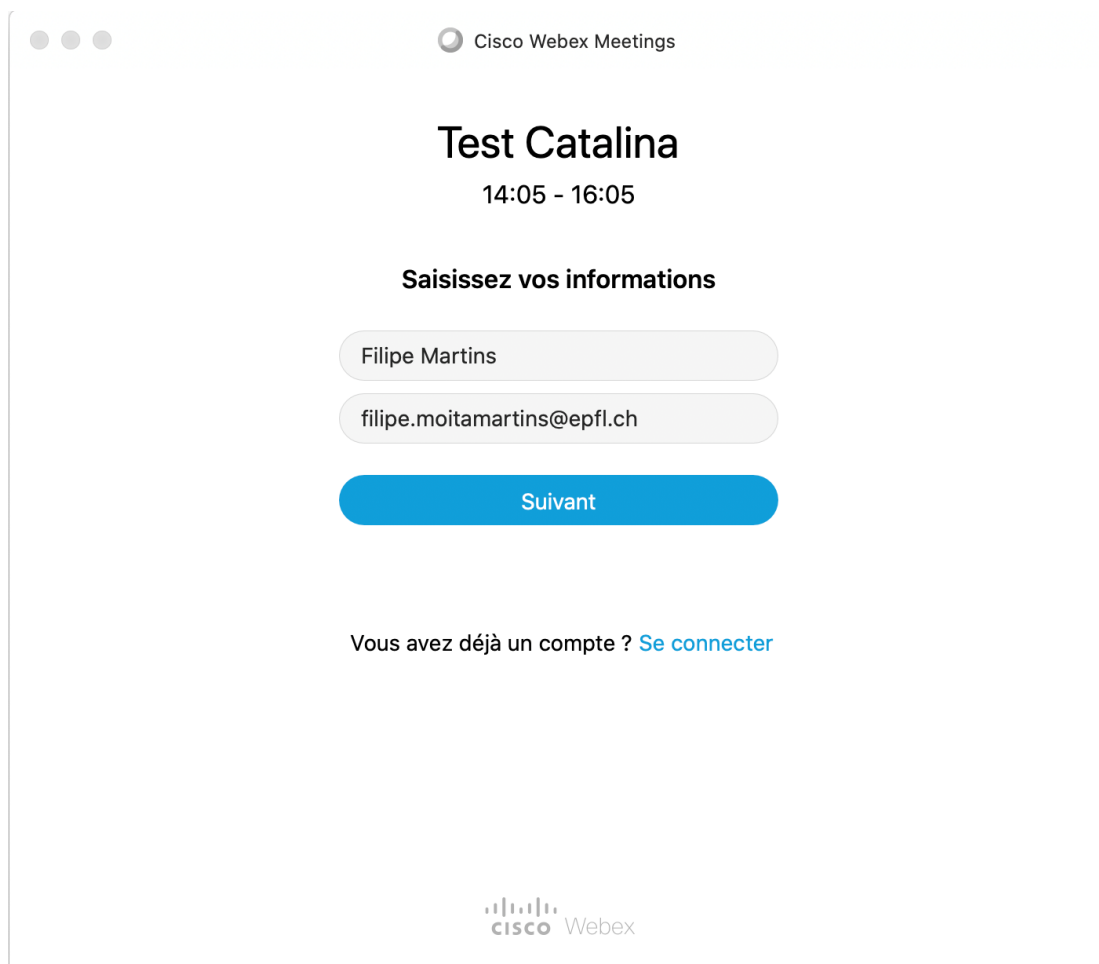

- Click on the link of the 'Webex meeting' invitation
- It will automatically download the program if you don't have it
- Launch the program
- Click on "Continue"

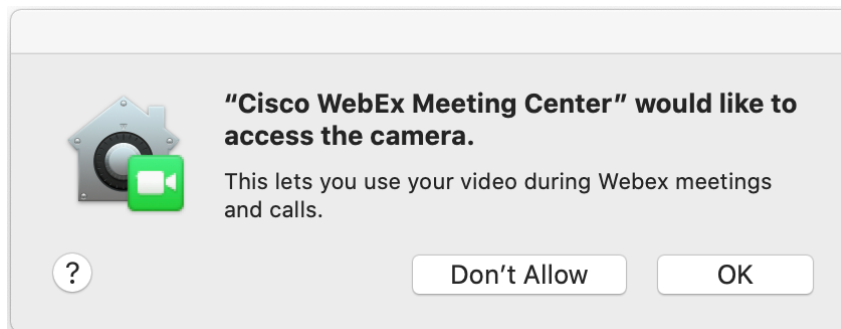

- Accept this pop-up if regarding the microphone

- Enter your name and e-mail address to proceed

A screenshot of a web browser window showing the Cisco Webex Meetings registration page. The browser title is "Cisco Webex Meetings". The page content includes: "Test Catalina" followed by "14:05 - 16:05". Below that is the heading "Saisissez vos informations". There are two input fields: the first contains "Filipe Martins" and the second contains "filipe.moitamartins@epfl.ch". A blue "Suivant" button is positioned below the input fields. At the bottom, there is a link: "Vous avez déjà un compte ? [Se connecter](#)". The Cisco Webex logo is at the bottom center.

- Accept this pop-up if you want to use the camera

Audio and Microphone

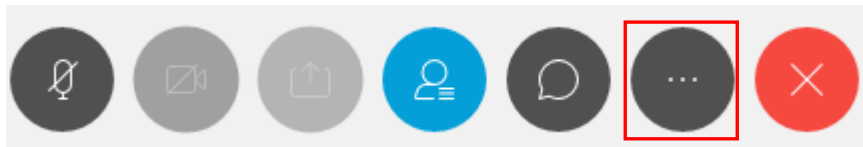

Make sure to configure your audio before entering the conference

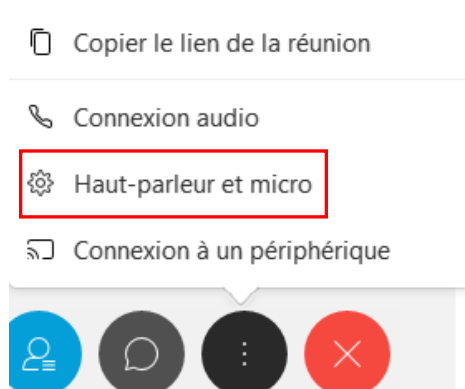

Audio

Microphone

If already connected to the conference => Click on the 3 dots at the bottom

Then choose the gears

Here you can configure your audio and microphone
