

# EPFL- Neuro-X Internships

**Hind Klinke**

Section deputy SNX

Internship coordinator

November 16<sup>th</sup>, 2023

# The internship: Excellent Opportunity !!!

## □ Students

- **A Great incentive to ask oneself the right questions !**
- Familiarize with working life
- Immerse into Industry practice
- Future Hiring opportunity

## □ Companies

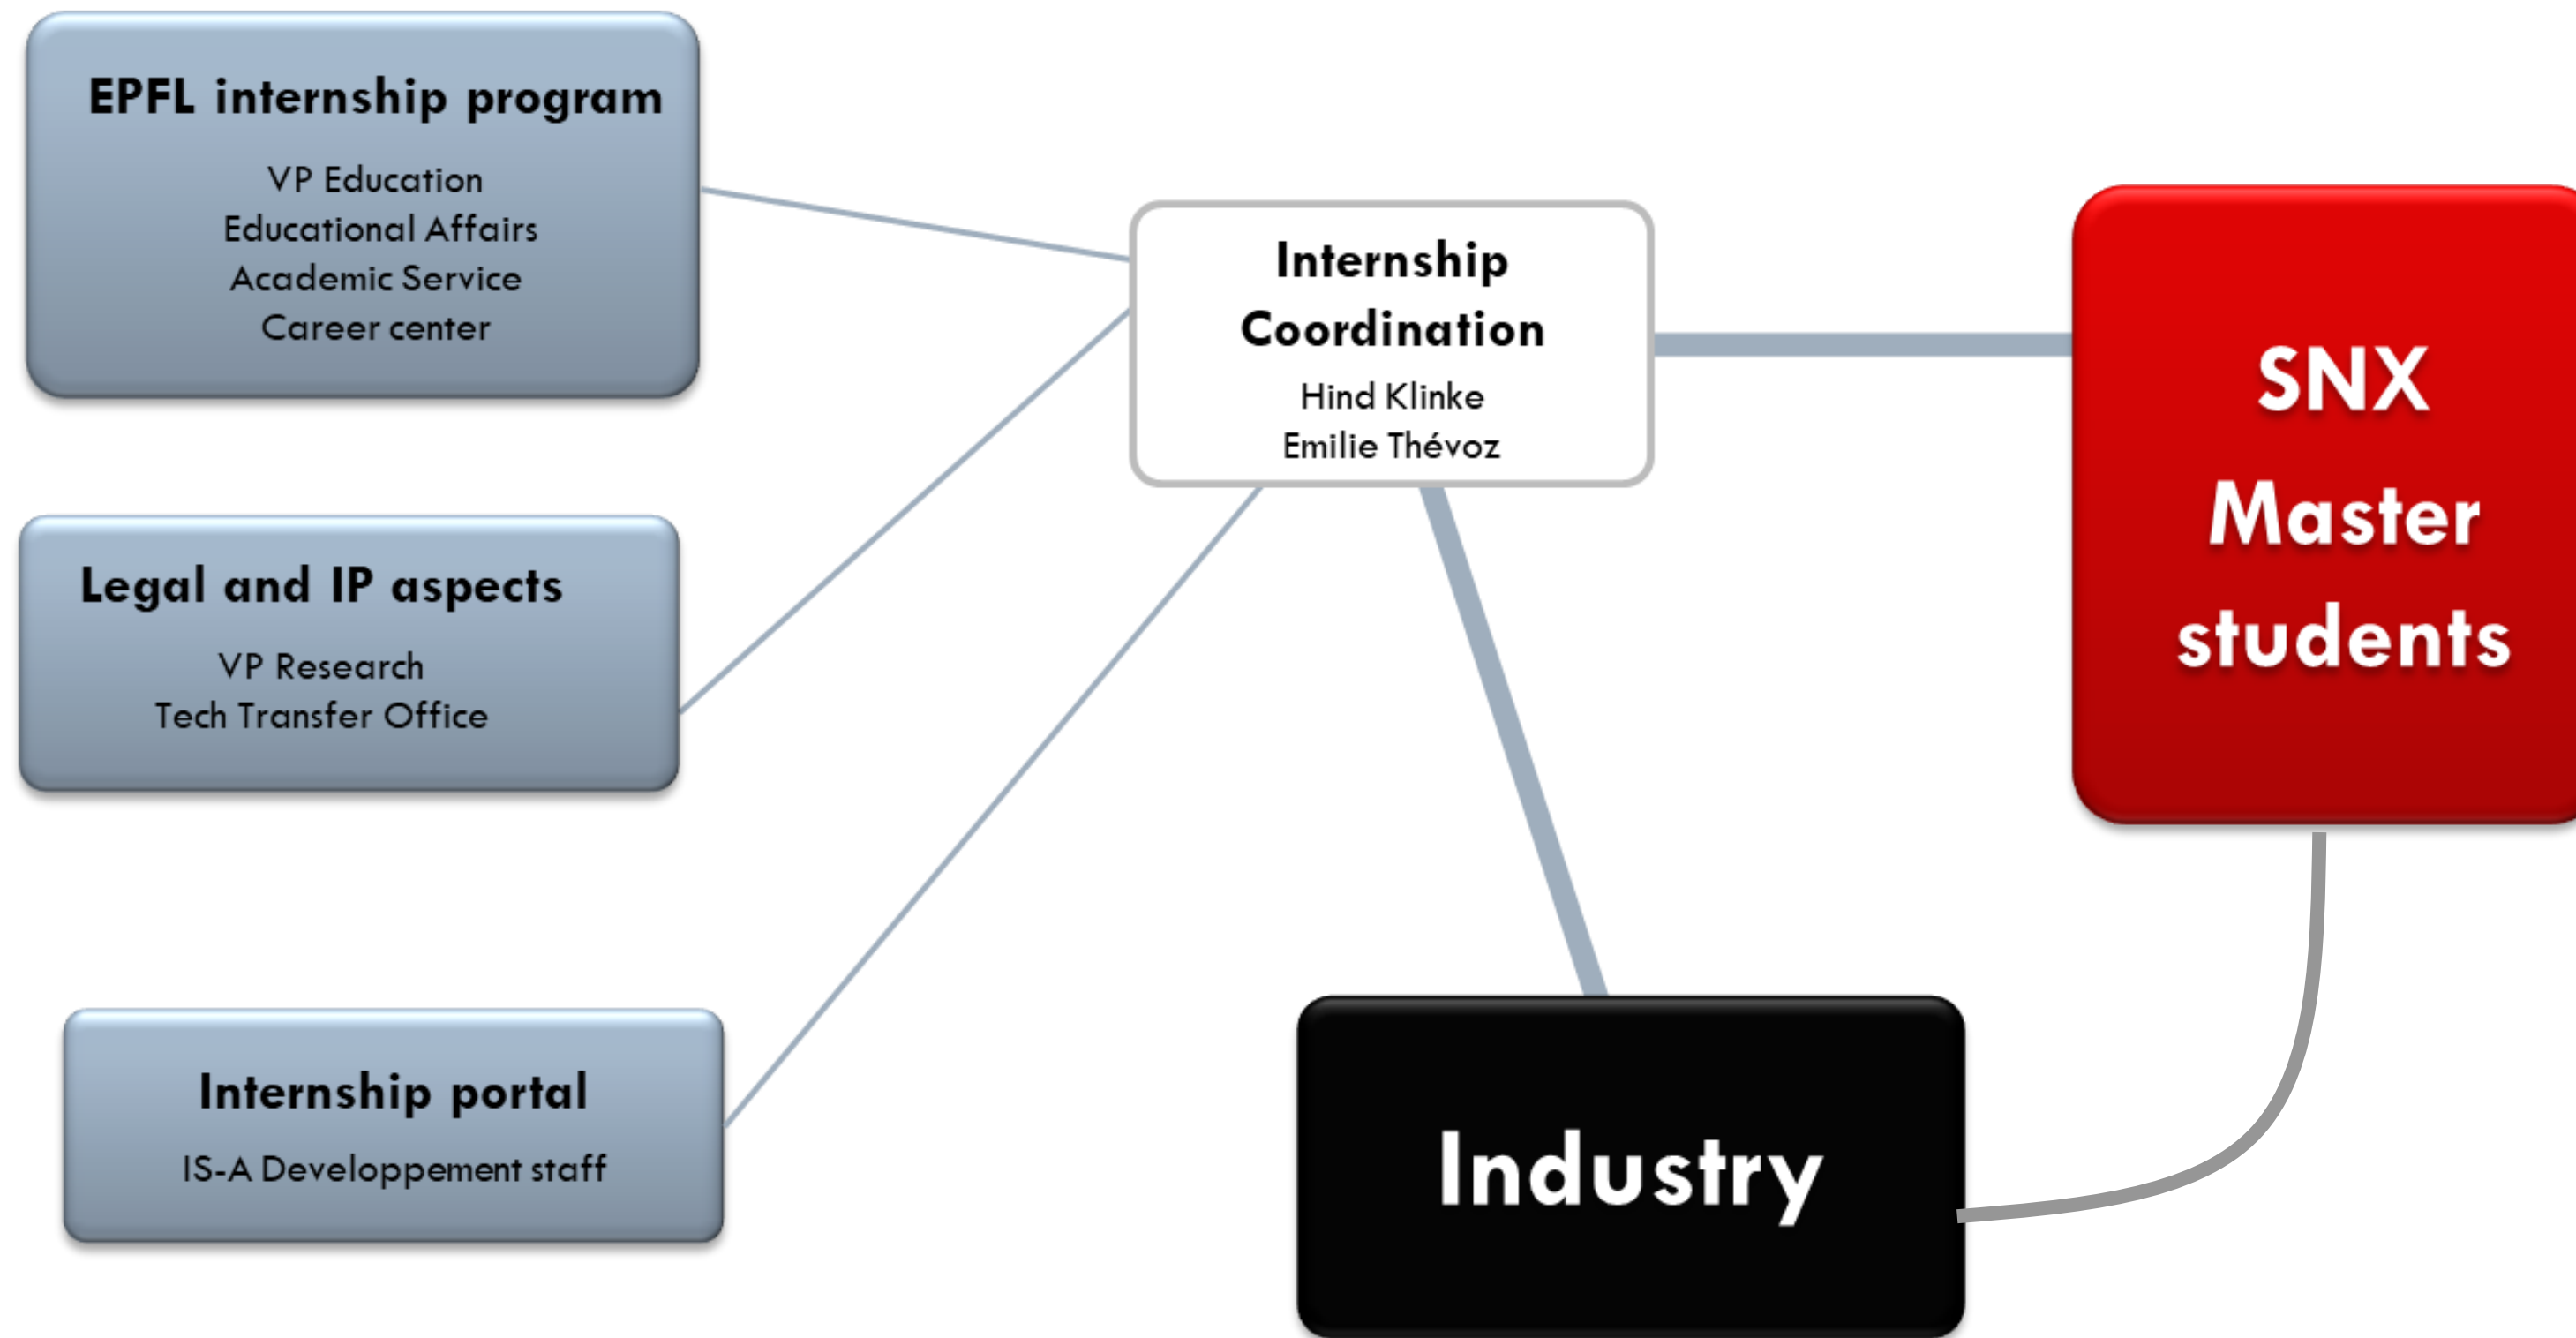

- Benefit from highly qualified students
- A new insight on current issues, innovate !
- Evaluate futur employees

## □ EPFL

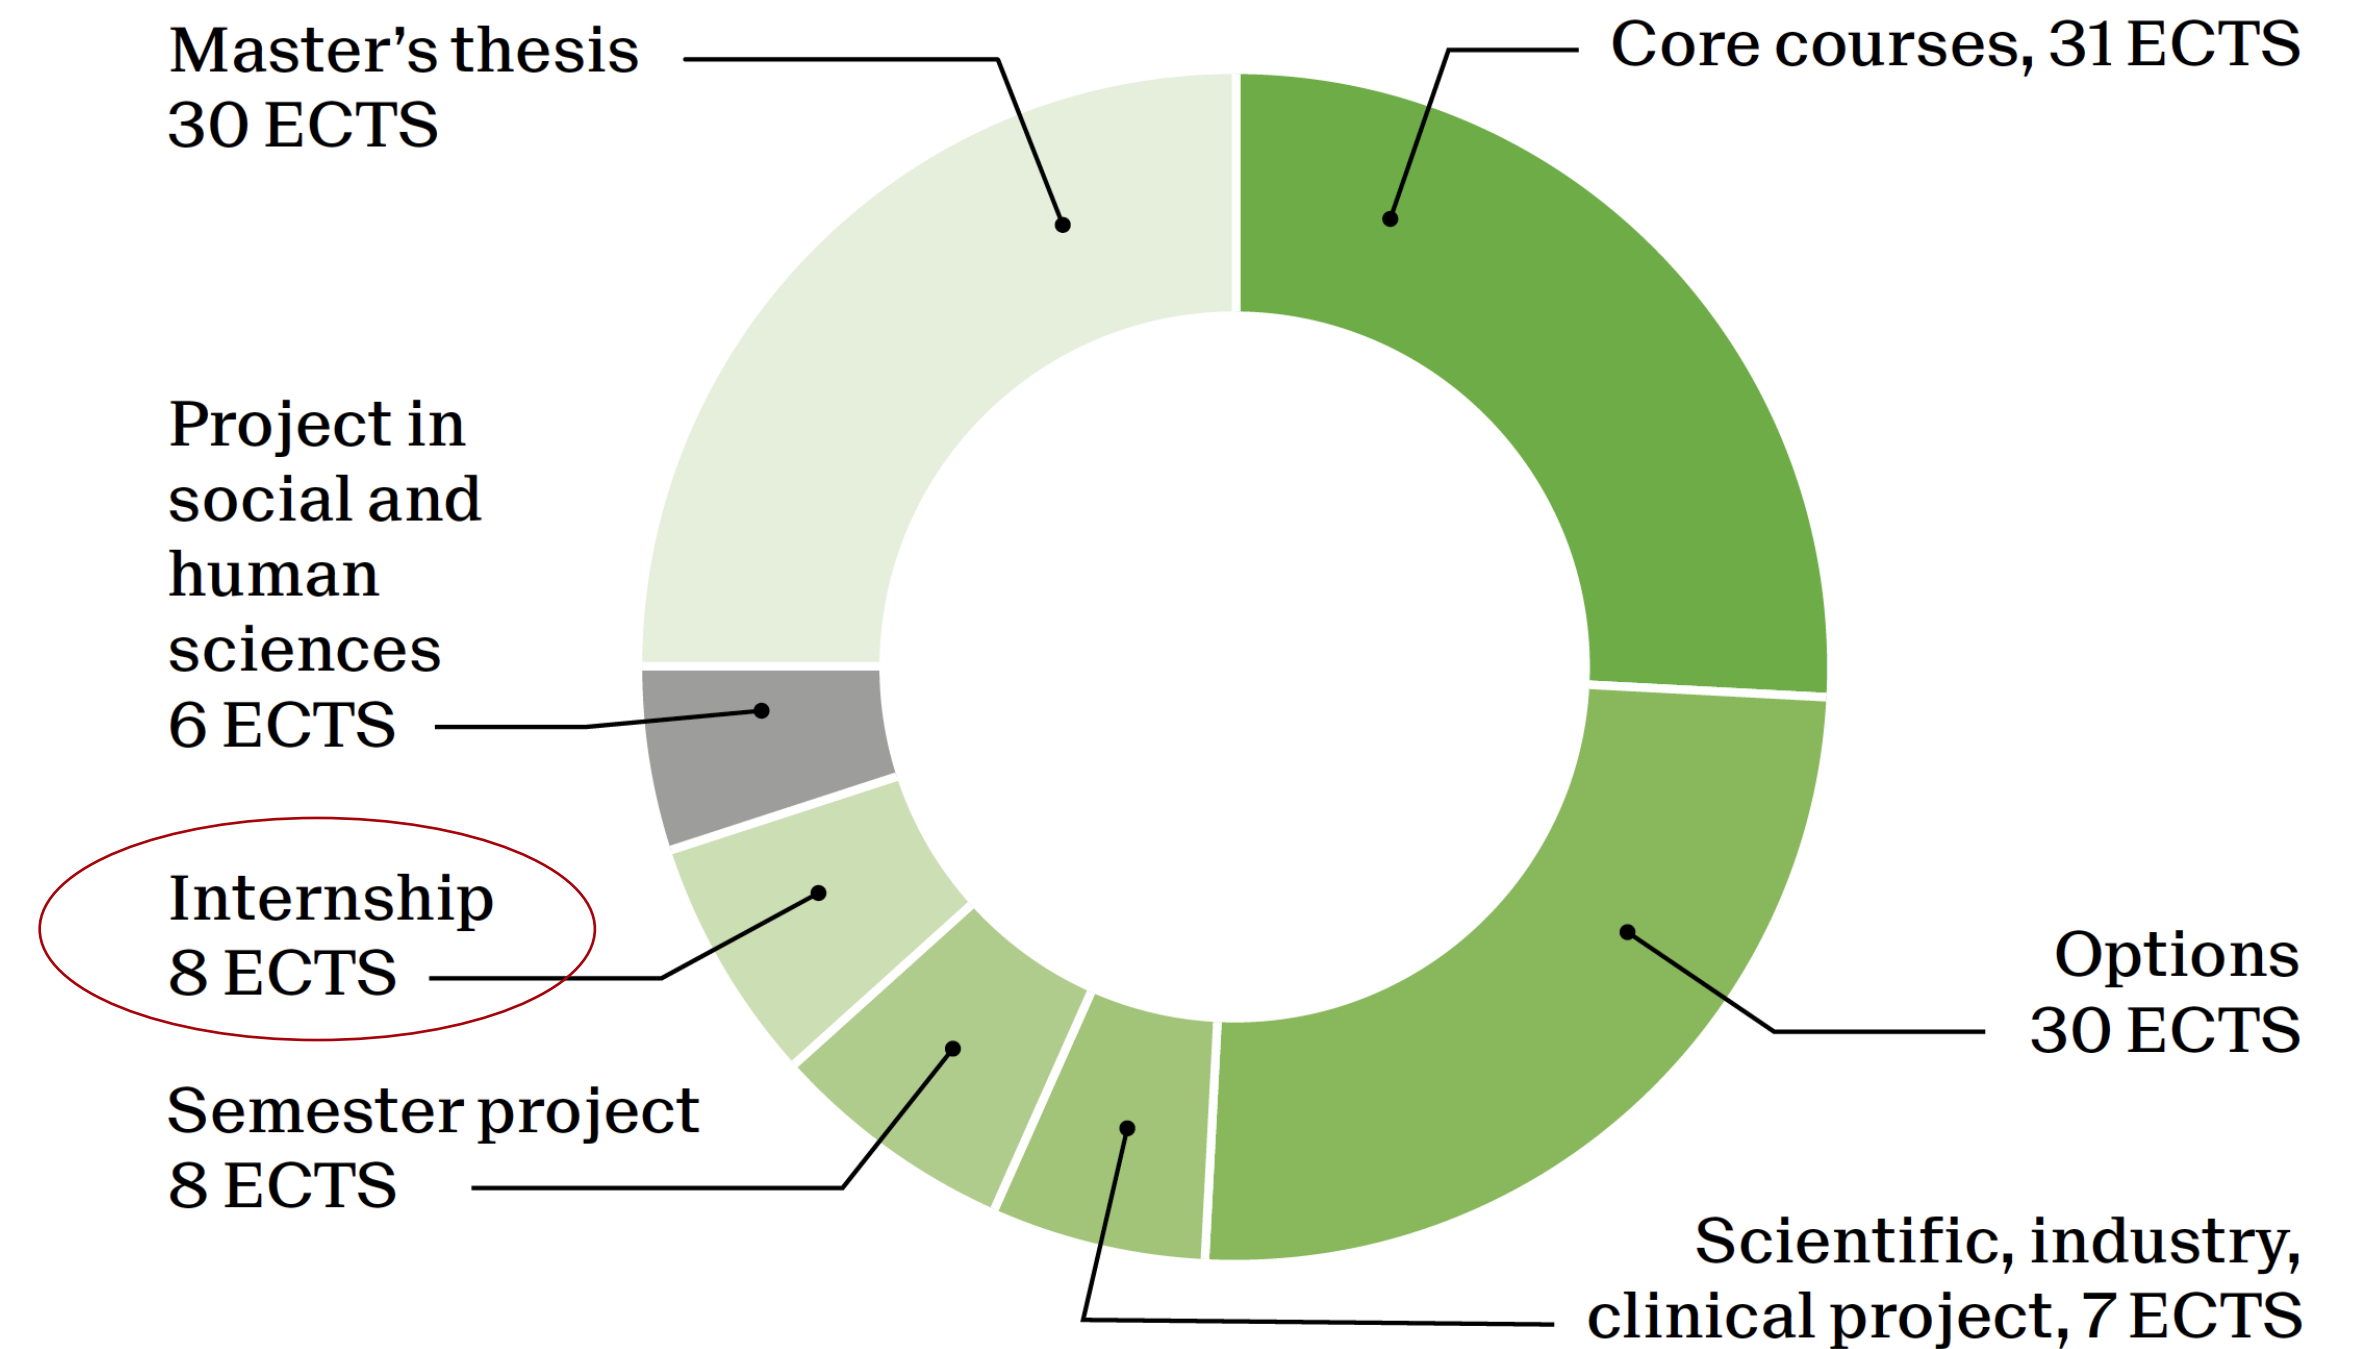

- A direct link to industry
- A new platform to start collaborations on the research level
- Feedback from industry to improve the education of our students

# Internship Coordination

# Internship obligation

- The Internship in industry is a mandatory step of the Master degree
- Possible format to validate this obligation:
  - SCS: Stage à Crédits Séparés

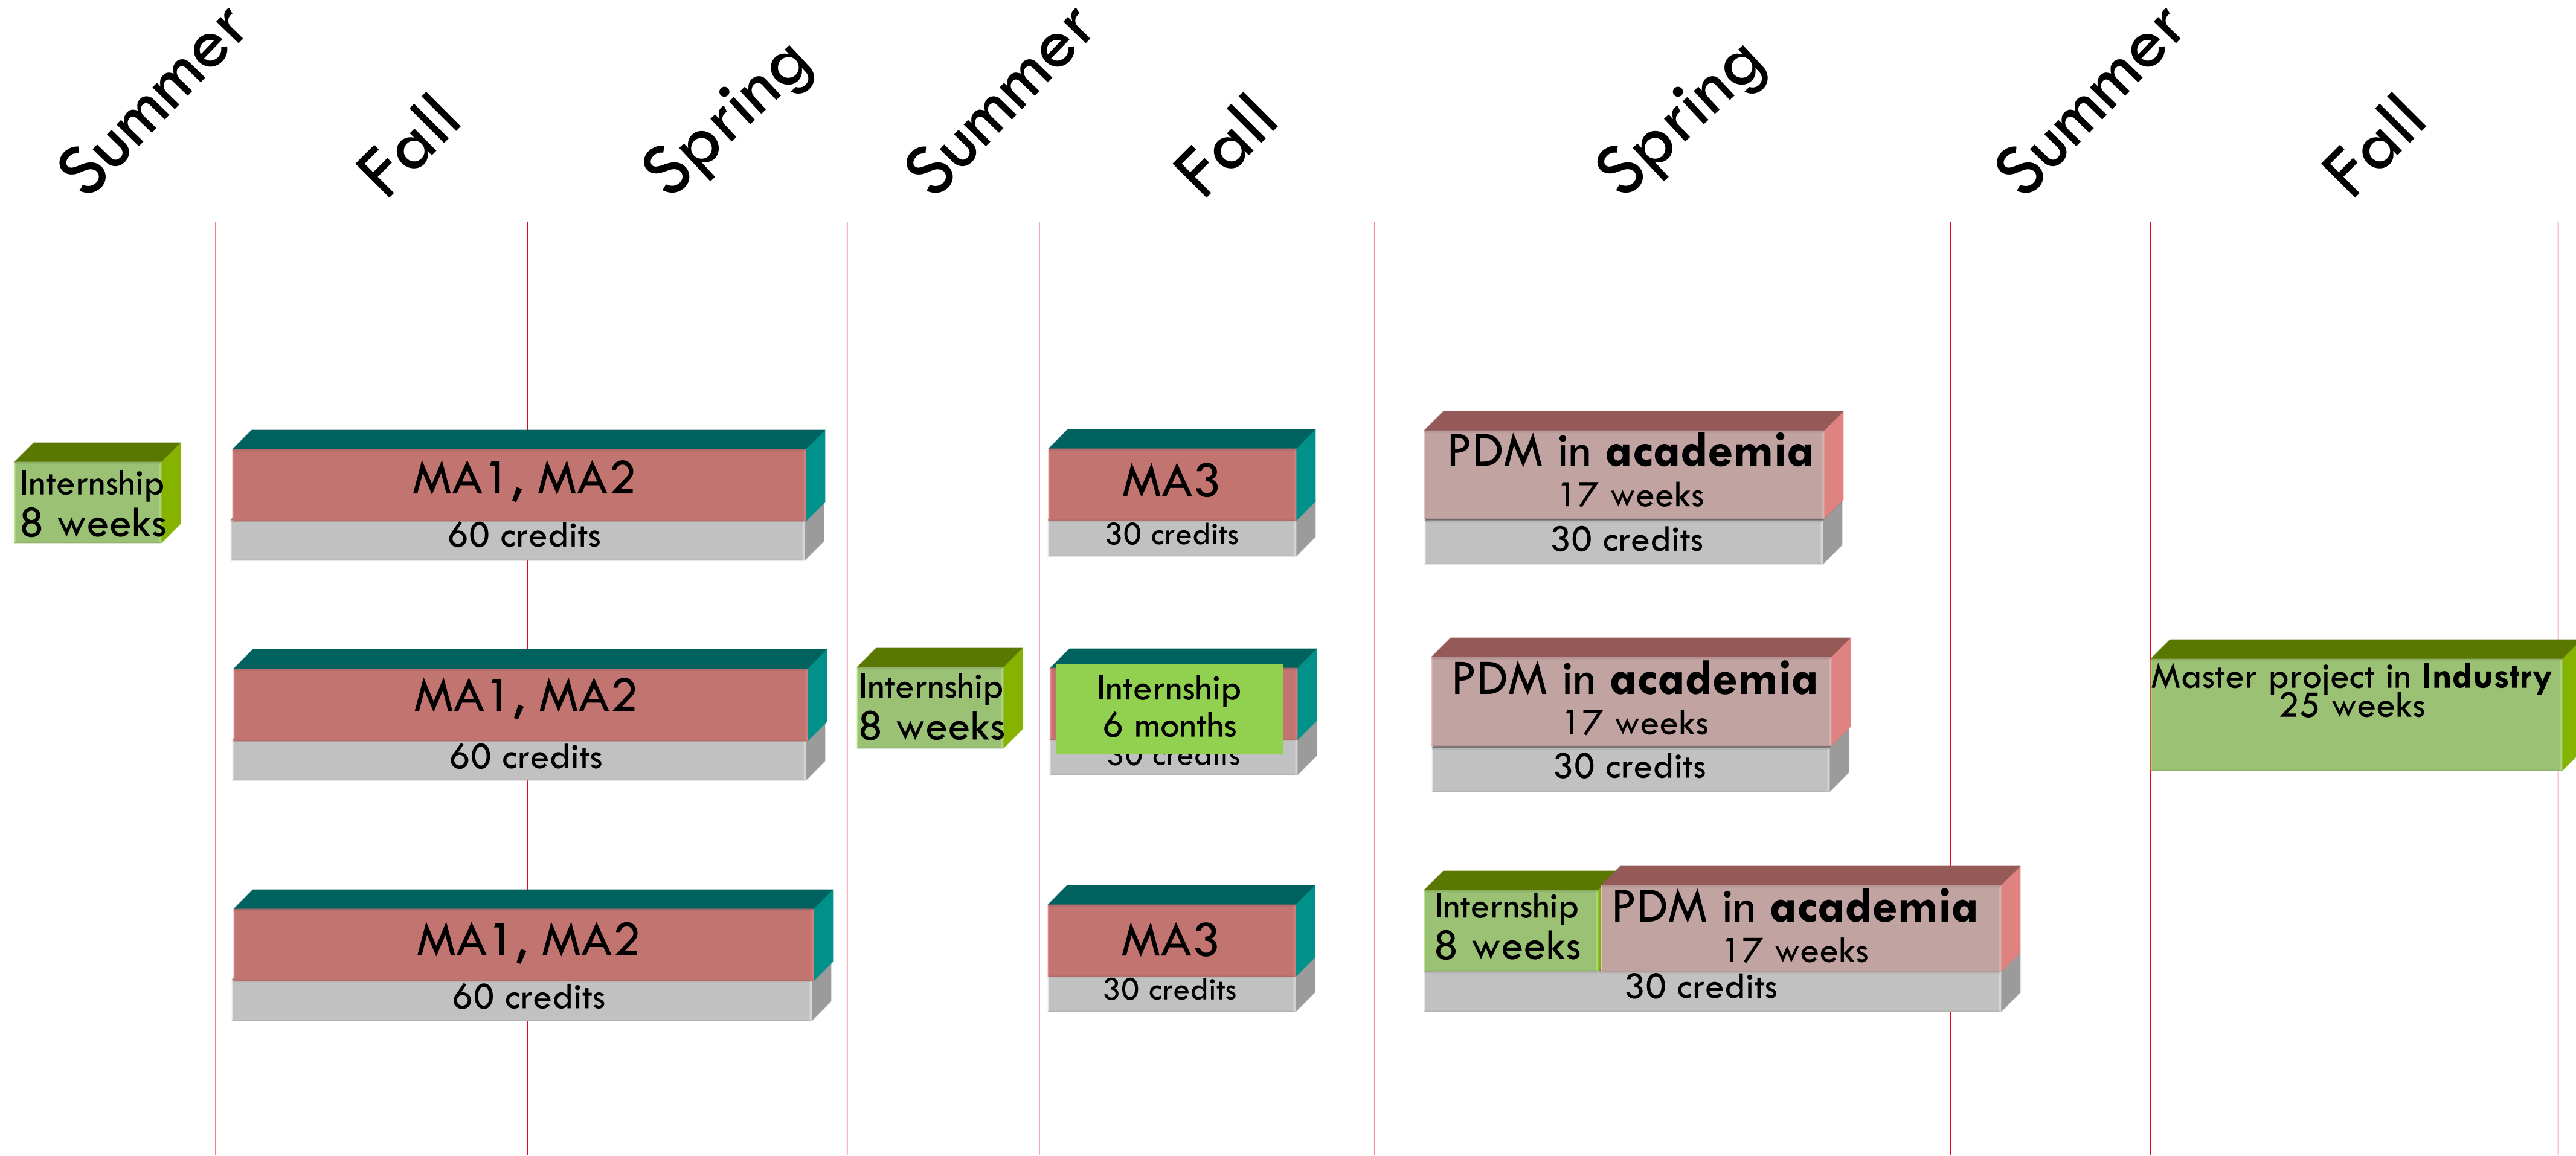

# Internship criterias

- Minimum duration of **2 month**, up to **6 months**
- Immersion into industry
- Familiarize with company processes
- Aquire specific competences
- Apply transversal skills
- Evaluation form by student and industry supervisor

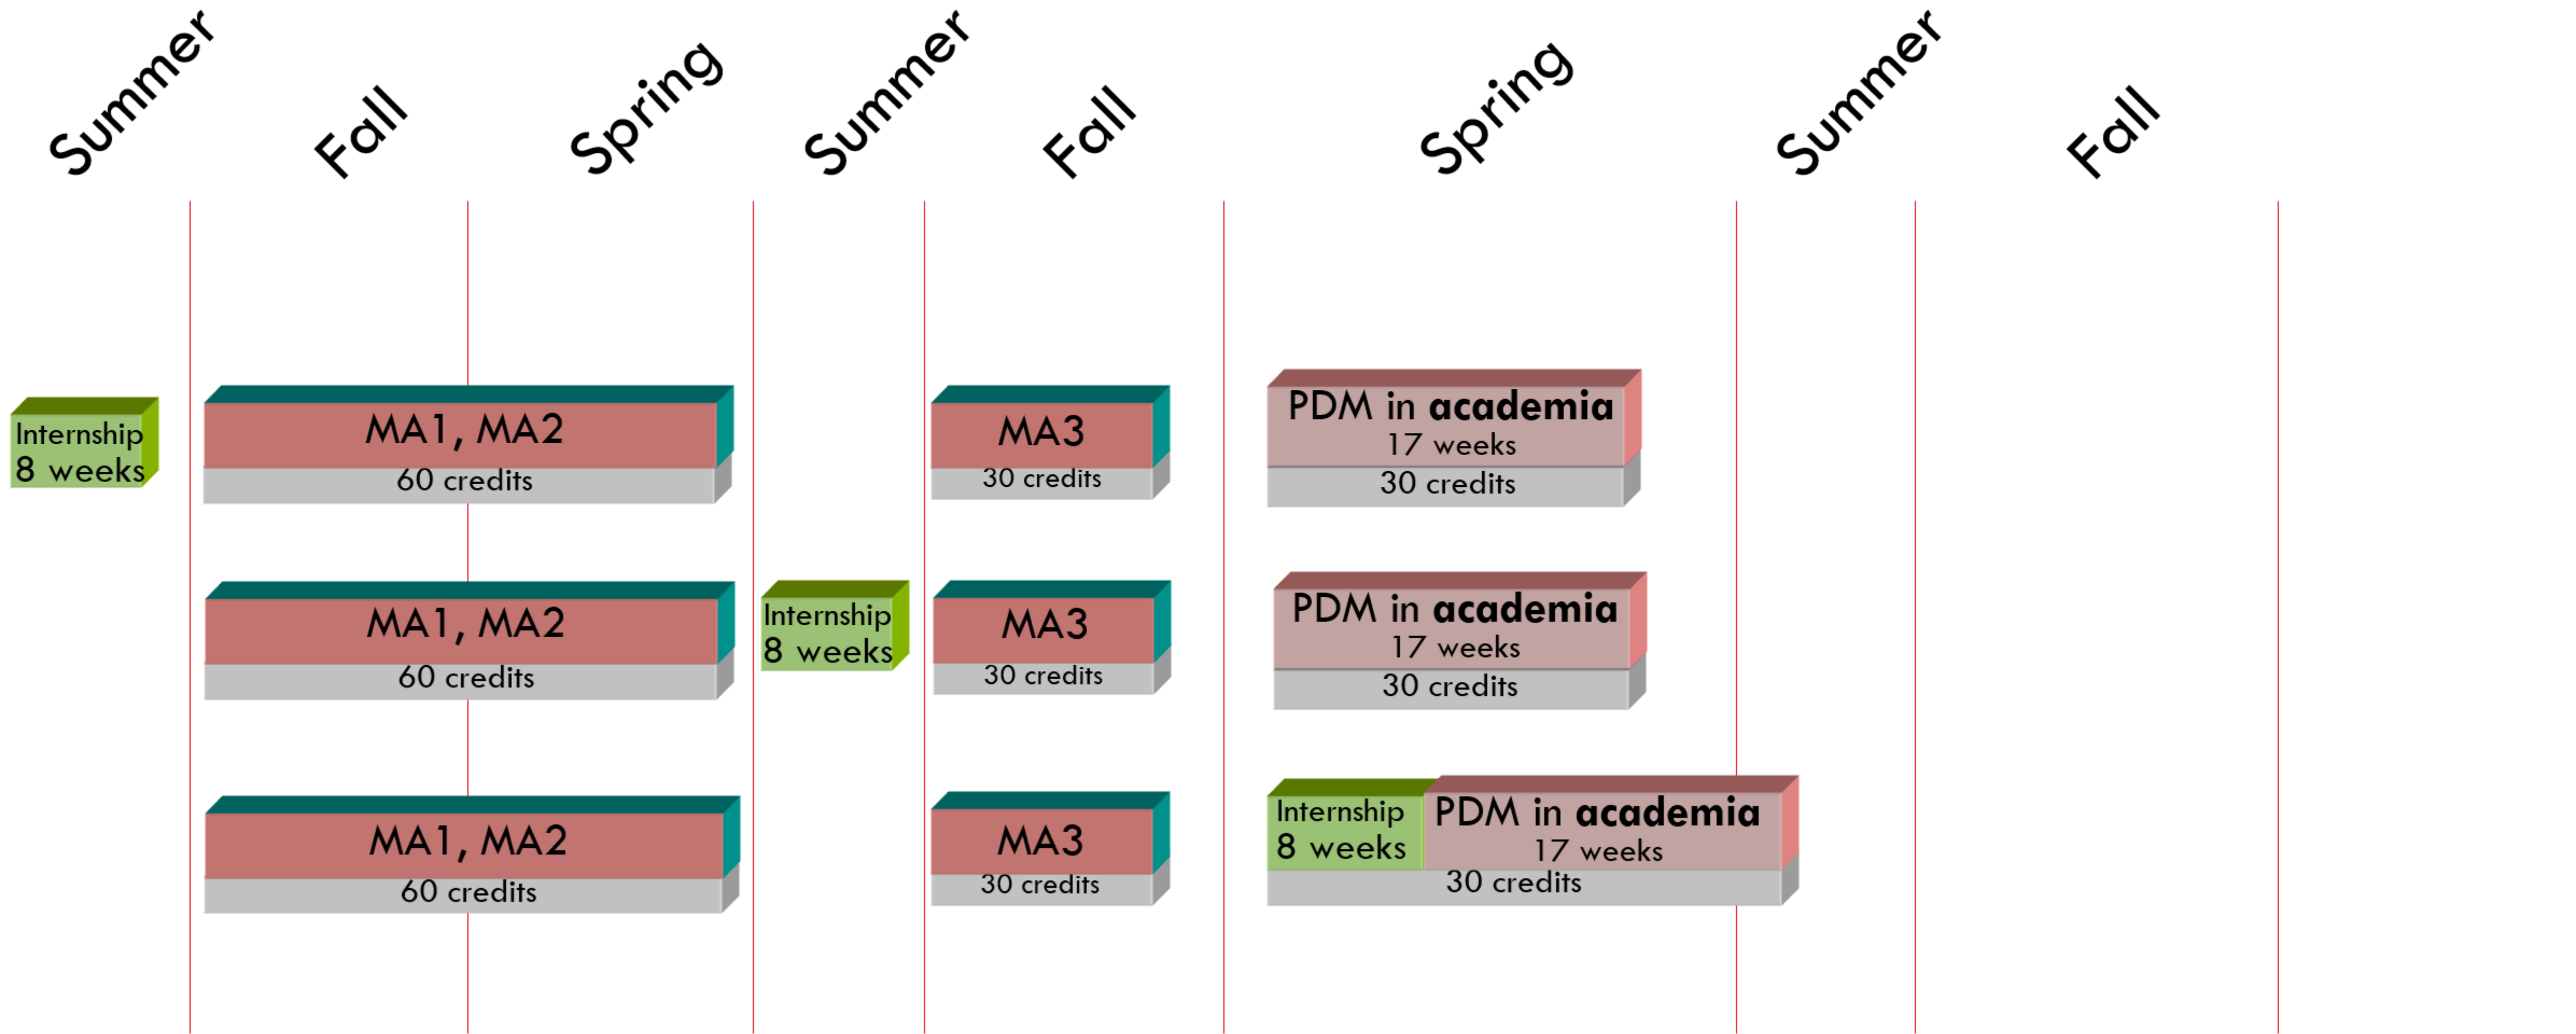

# When to place your internship?

PDM in academia in foreign Universities: 25 weeks

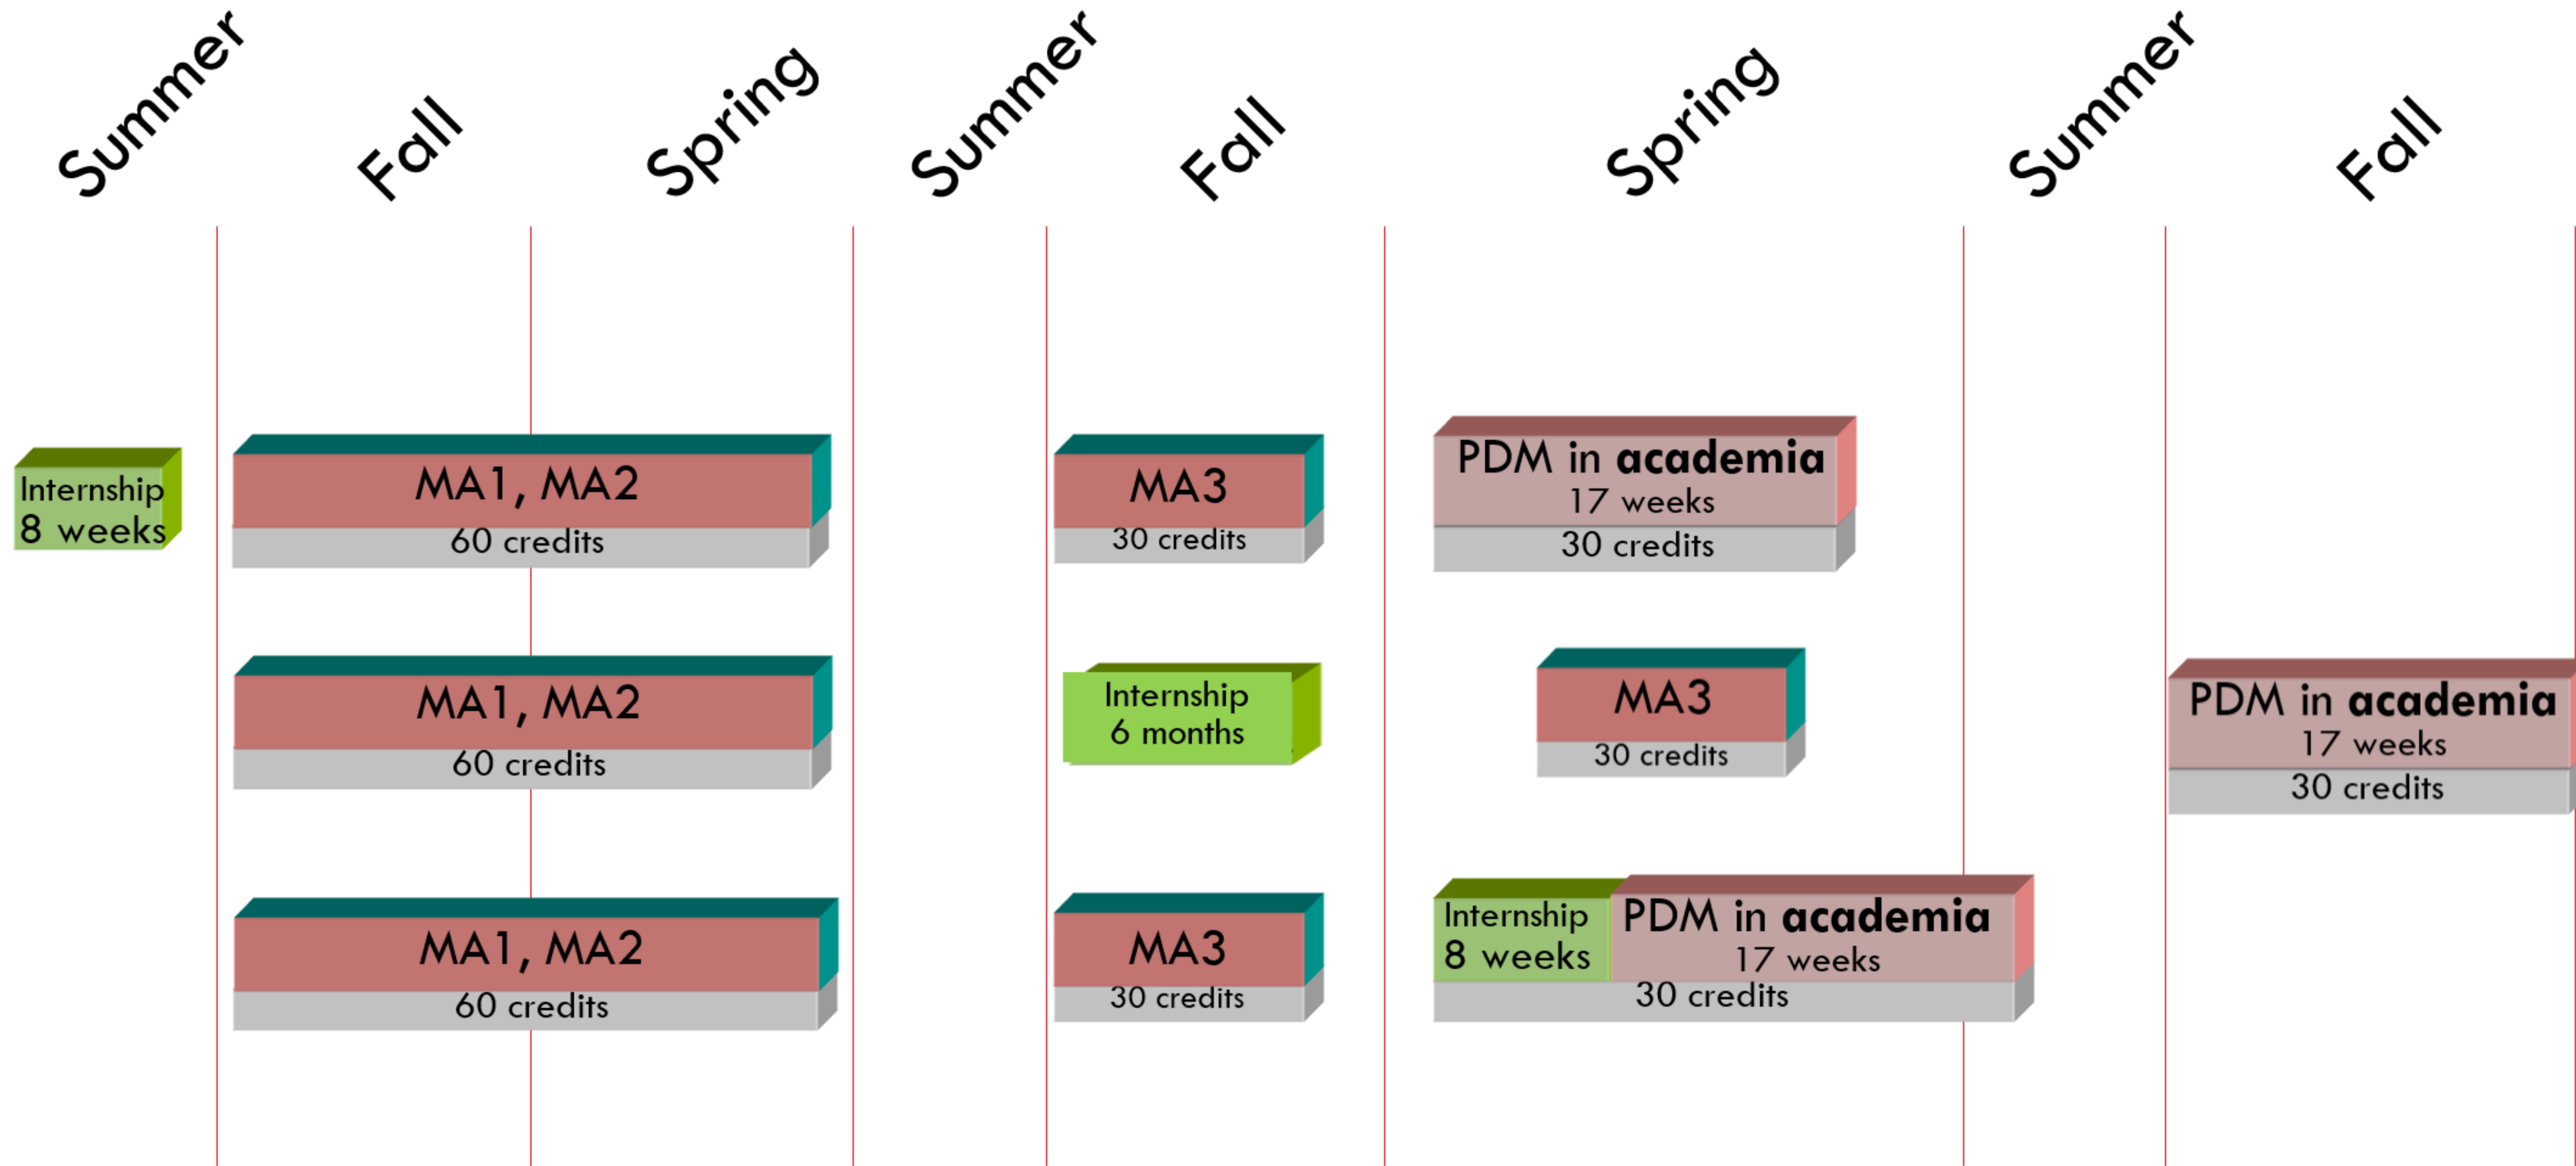

# When to place your internship?

PDM in academia in foreign Universities: 25 weeks

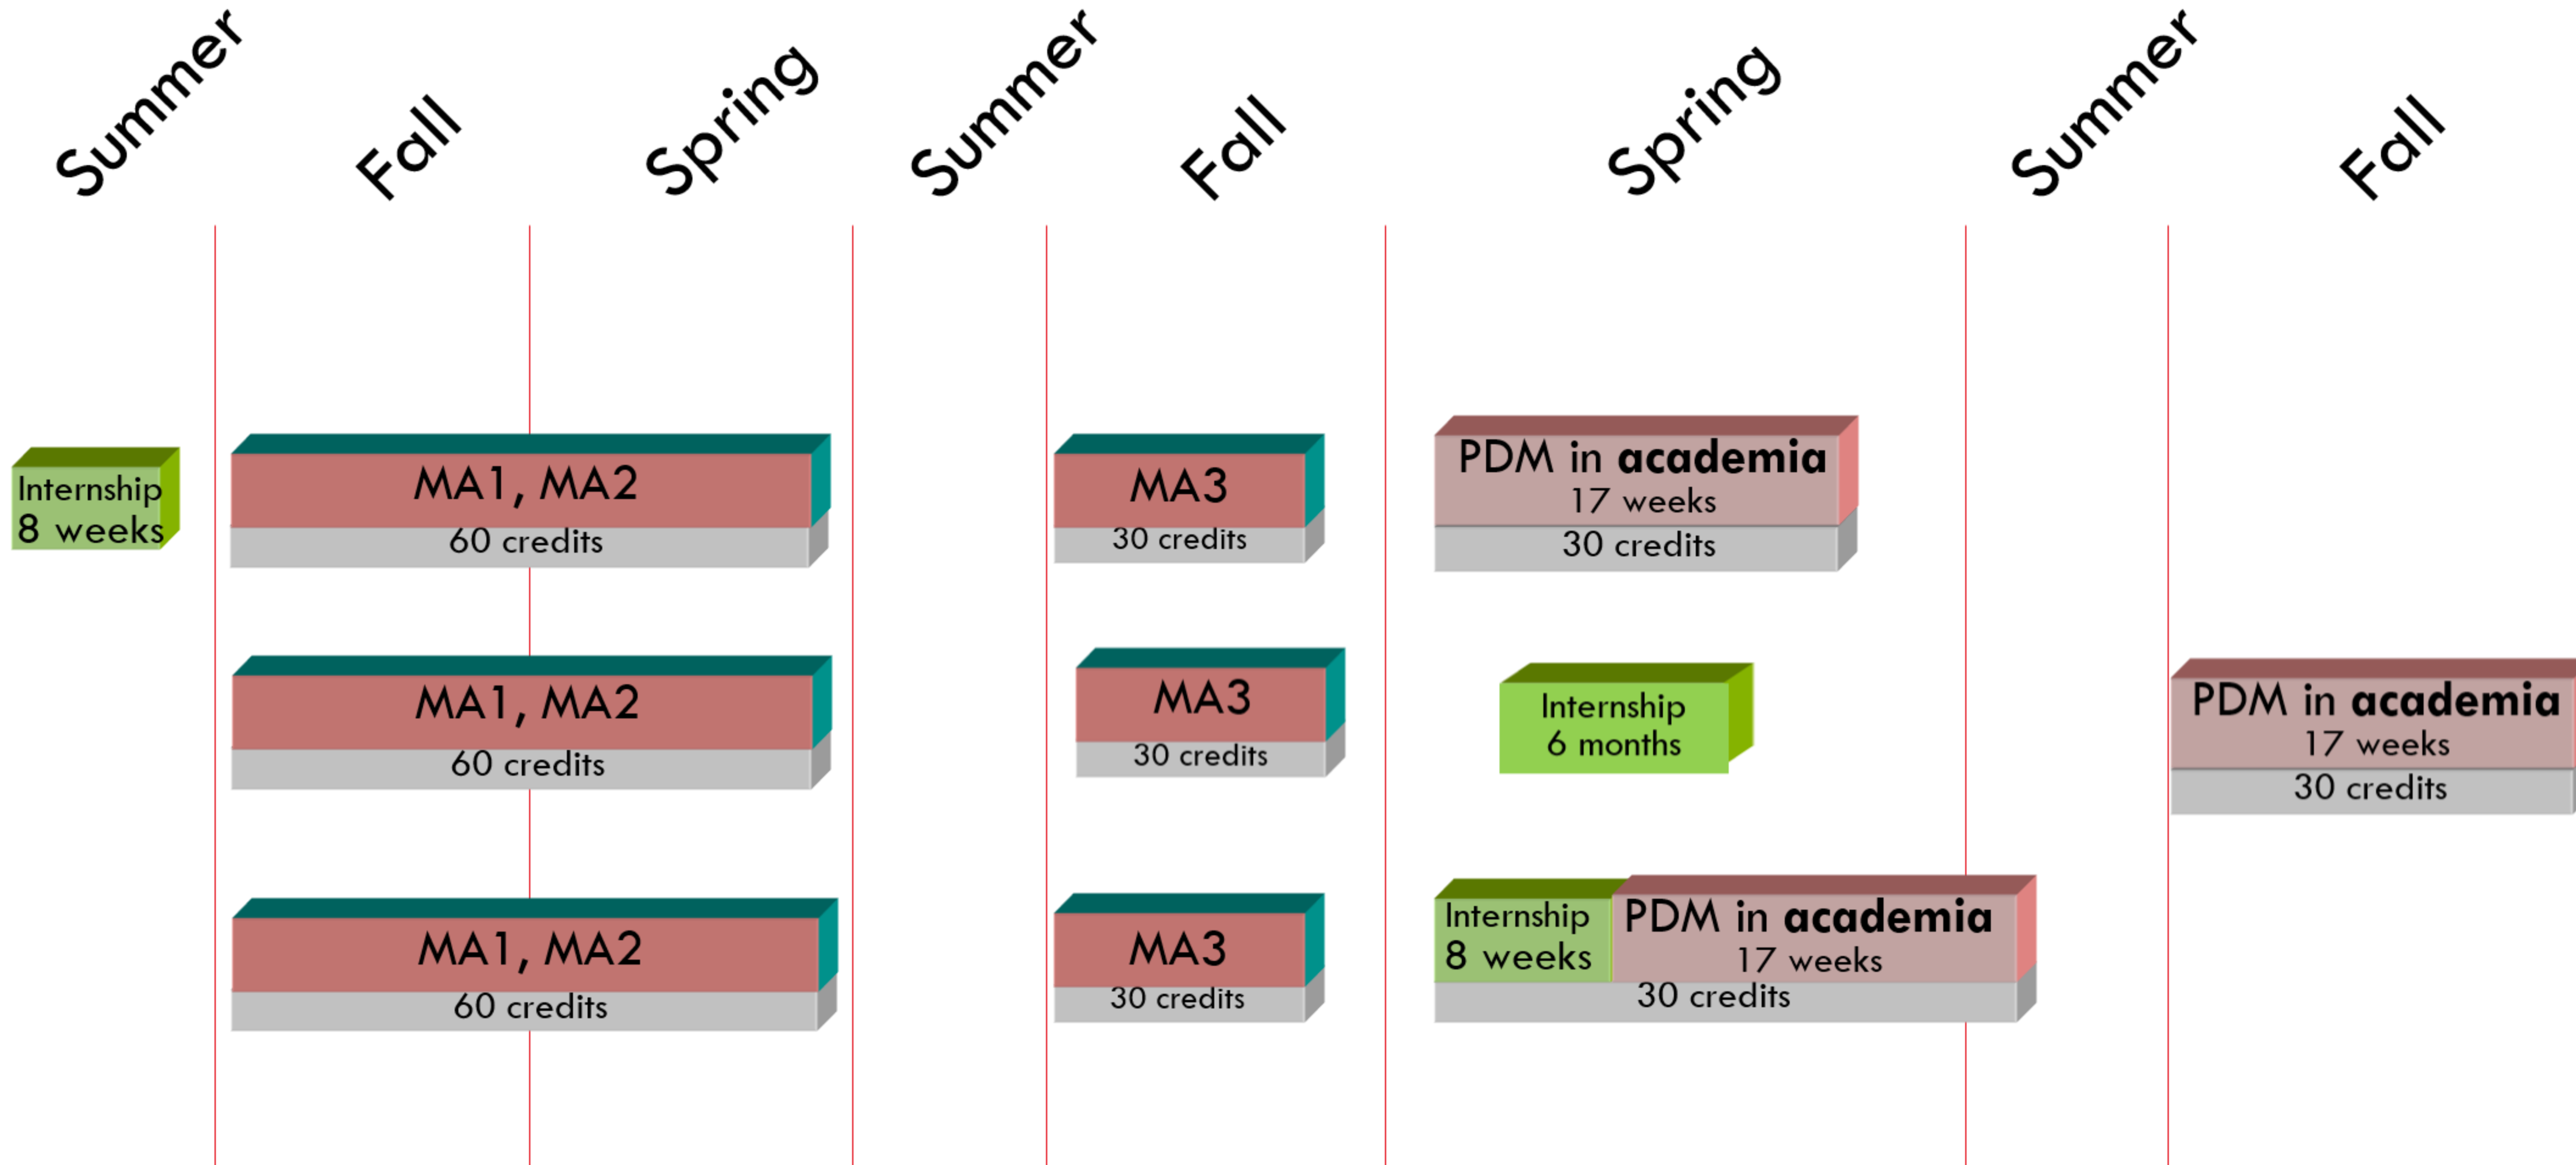

# When to place your internship?

PDM in academia in foreign Universities: 25 weeks

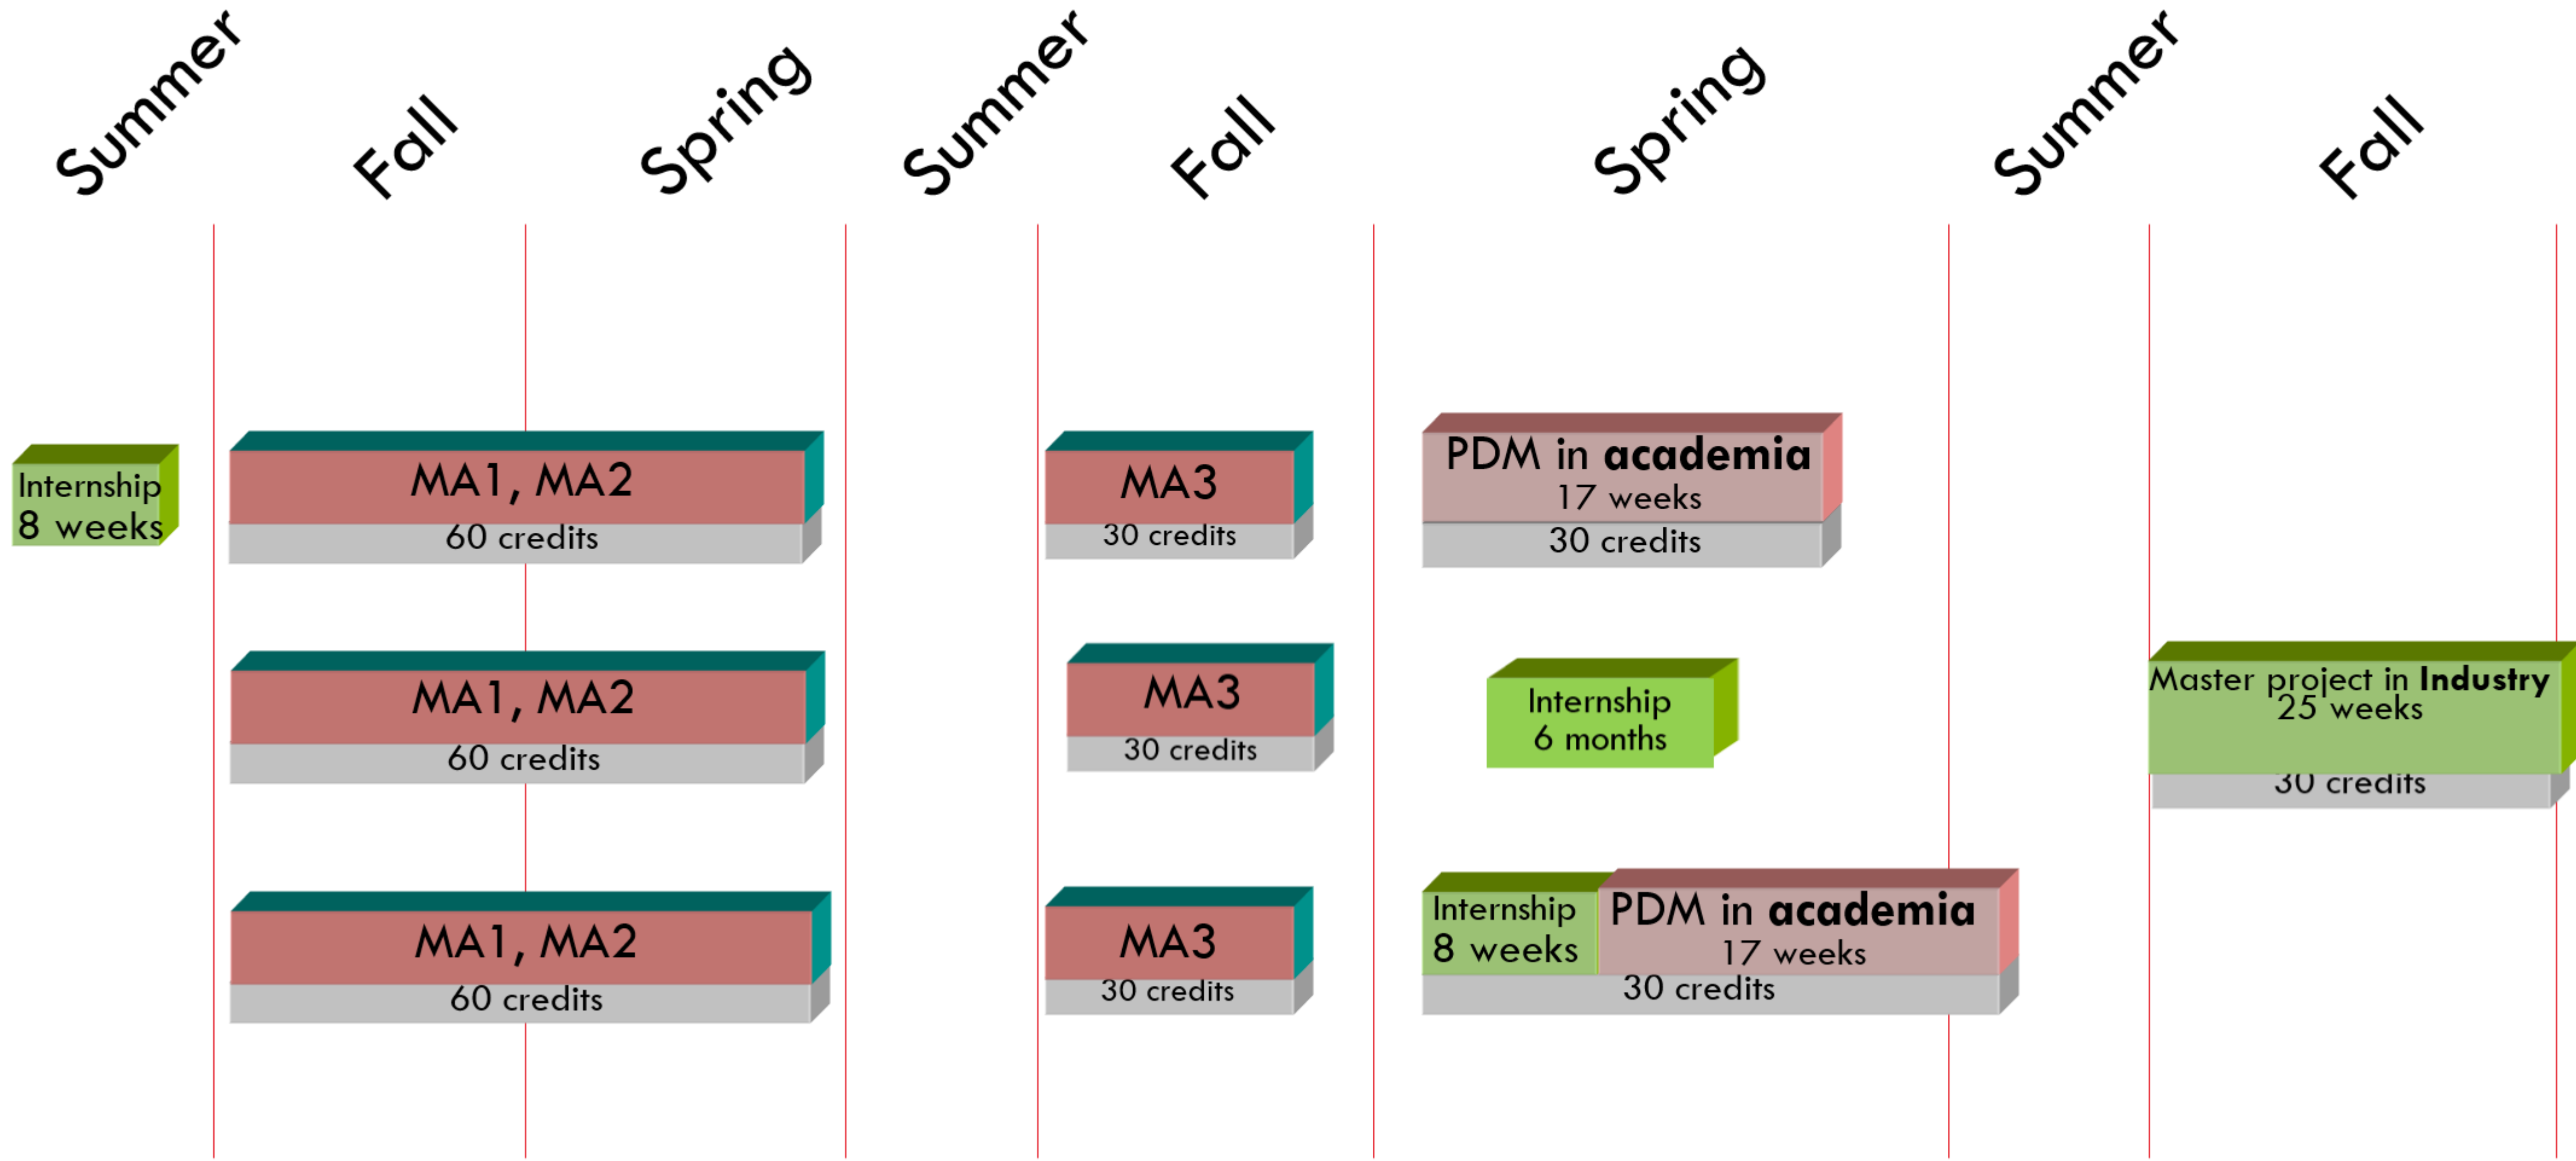

# When to place your internship?

PDM in academia in foreign Universities: 25 weeks

# When to place your internship?

PDM in academia in foreign Universities: 25 weeks

# What is considered «Industry» ?

- Every company or start-up offering a workplace outside of an EPFL laboratory
- Every Research Organisation not delivering academic credits

# How much salary?

- There is no official regulation in Switzerland to pay a monthly salary for an internship.
- Salaries are mostly ruled by offer and demand
- Often the salary is dependent of the company's size and status
- EPFL recommends a typical monthly salary around **2'000 SFr.** However, there is no obligation of the company to comply with this.

- In Case of a Master Project in Industry, remuneration can be handled more freely (no monthly salary, compensations, bonus at the end, ...)

# Internships outside Switzerland

Some recommendations for an internship abroad:

<https://www.epfl.ch/campus/security-safety/en/security/travels-abroad/plan/>

## Plan your trip

During your trip

Emergency assistance while abroad

Using our travel assistance program

Travel risk map

International SOS

Plan your trip

- The federal council allows foreign students of Swiss academic institution to perform a mandatory internship during their studies:  
<https://www.admin.ch/opc/fr/classifiedcompilation/20070993/index.html#a39>
- Students with Non-EU/EFTA passports require a valid work authorization to do their internship or Master project with monthly salary in Switzerland or EU countries.
- EU students performing a 3-6 month internship have to be simply announced at the cantonal office
- It is the company's responsibility to request this authorization at the proper working office of their canton/country([Link](#) to obtain a mandatory internship certificate.)
- It requires up to 8 weeks to obtain this authorization from the cantonal offices.
- We recommend that students from non-EU/EFTA countries inform the companies in their motivation letter of these regulations.

*Example: "As I'm a non-EU/EFTA resident, your company would be required to ask for a temporary work authorization. Please be advised that the federal council allows foreign students of Swiss academic institution to perform a mandatory internship during their studies: <https://www.admin.ch/opc/fr/classified-compilation/20070993/index.html#a39>. As I will stay registered at EPFL during this internship, and since this internship is a mandatory part of my Master education, the delivery of this document does not fall into the quota limitation of each canton and is therefore straightforward".*

# How can you find an internship ?

- It is the student's responsibility to find an appropriate internship to validate his Master degree.
- No responsibility can be taken from EPFL side if no internship has been found by the student.
- The student can find an internship position by himself, but the subject needs to be approved by the section deputy.
- EPFL offers an internship portal on which students can find an alternative to their personal quest for finding an internship.
- Access to the **EPFL portal** is given through the student's **IS-Academia account**

## How to identify them ?

Company submissions are listed on the internship portal once validated by each section. Internships with a sustainability label will be identifiable with the following logo:

## Evaluation report

The evaluation process of the internship is similar to a regular internship but the student is asked to write a **half-page report** to comment if the sustainability goals have been reached. This report does not influence the validation of the internship for the master curriculum.

	Optimisation du potentiel énergétique d'une installation de traitement des granulats	03.10.2022	Holcim (Suisse) SA	Aigle	
	Multi-Frequency, Multi-Modal transduction of Piezoelectric Micromachined Ultrasonic Transducers (PMUTs).	03.10.2022	IMEC	Leuven, Belgium	
	Aerospace smart sensors - R&D embedded software developer	03.10.2022	Meggitt SA	Fribourg	
	Comparing NTA/IDS(Suricata+QosmosDPI, nProbe Cento+nDPI, Mellanox/Nvidia @BF2 ARM AR QosmosDPI) Solutions @100Gbps	02.10.2022	Universitaet Bern	Bern 3012, Hochschulstrasse 6	
	Simulation Based Aerodynamic Performance Evaluation	30.09.2022	Sauber Motorsport AG	Hinwil, Switzerland	
	L'exploitation optimale des installations techniques dans l'environnement bâti	30.09.2022	energo	Lausanne	

# Some opportunities for finding an internship

- Personal contacts, family, friends
- Topic related agencies and organizations
- International platforms
- Company websites

Every Internship found outside the IS-A portal has to be approved by your section. Please send the completed [validation form](#) to SNX as soon as you have found an opportunity

The screenshot shows the website for the Forum EPFL. At the top left is a dark blue menu icon. To its right is the logo for FORUM EPFL, which consists of a grid of dots forming a cross shape followed by the text "FORUM EPFL". Below the logo is a navigation menu with the following items: "Édition 2023", "Étudiants", "Entreprises", "Start-ups", "ONG/OIG", "Forum EPFL", and "FAQ". The main content area features a large green rectangular box with a white line-art illustration of a building. Below the illustration, the text reads "Le Forum EPFL fête ses 41 ans !". Underneath this, a horizontal line is followed by the text "9 – 13 Octobre 2023 au SwissTech Convention Center". In the bottom left corner of the green box, there is a small circular icon with a question mark and a speech bubble.

# EPFL Career Center workshops

Dear student, Dear doctoral student,

**ORACLE** invites you to join them for an exclusive insight into Oracle Labs and for an overview of their internship opportunities on **Wednesday, 25 October 2023 à 5.15 p.m. in [Room BC410](#)**.

**1. [ORACLE Labs Presentation & Tech Talk \(open to all\): from 5.15 p.m. to 6.15 p.m.](#)**

Oracle Labs is Oracle research center where most of Oracle innovation take place. The research areas span most fields of computer science. This presentation's journey will walk through some areas of Oracle research and development: Generative AI and data science - Data processing as graphs - Compiler graphs- Compilations for cloud native. Join us to discuss those topics with Oracle core engineers!

In the ever-evolving landscape of machine learning, Generative Artificial Intelligence has emerged as a game-changer technology for our everyday and professional lives. In this talk, they'll explore how large language models (LLMs) are transforming software development and data science at Oracle, by assisting developers via code generation, process acceleration and quality assurance.

[>> More about Oracle's Presentation here.](#)

[>> Biography of Oracle's speakers here: Giulia Carocari, Arnaud Delamare, Boris Spasojevic, Martijn Dwars.](#)

# How does the internship portal work?

- Browse through the internship offers of your Master program
  - Apply for a position by uploading 2 mandatory documents:
    - CV
    - motivation letter
  - Applications are sent on a weekly basis to the companies (**every Monday 14h00**)
  - Wait for the company to make its selection process (up to several weeks)
  - If no response after 2 months, contact your internship coordinator
  - You will be contacted by the company if your application was successful (Most selection processes involve an interview and several e-mail exchanges)
  - You **MUST** accept only one offer and reject all the others within the next 3 working days.
    - No withdrawal from the accepted position!
    - Kindly notify all other companies you had privileged contact with
- Do not use the portal for personal internship search
  - Apply always through the portal for mandatory internship

# Some advice to prepare your application documents

- 2 important documents
  - Motivation letter
  - Curriculum vitae (CV)

The criteria for interview selection by the company is mostly based in these documents. Reference letters can be added as well. Your motivation letter should specifically address the company and the proposed subject

- **Language** : you should use the language of the offer
- To be avoided:
  - No motivation letter
  - copy-paste errors
  - Wrong addressing

# Interview

Most companies would like to meet the students for an interview prior to making their final choice

- Be prepared for the interview and demonstrate a professional attitude.
- **Non EU/EFTA students:** Inform the company about the required work authorization
- If the living allowance is mentioned in the description, do not bargain. If not mentioned, inquire for it.
- Follow up: After the interview, write a short e-mail as feedback of your interview to the company.

# Prepare your internship campaign !

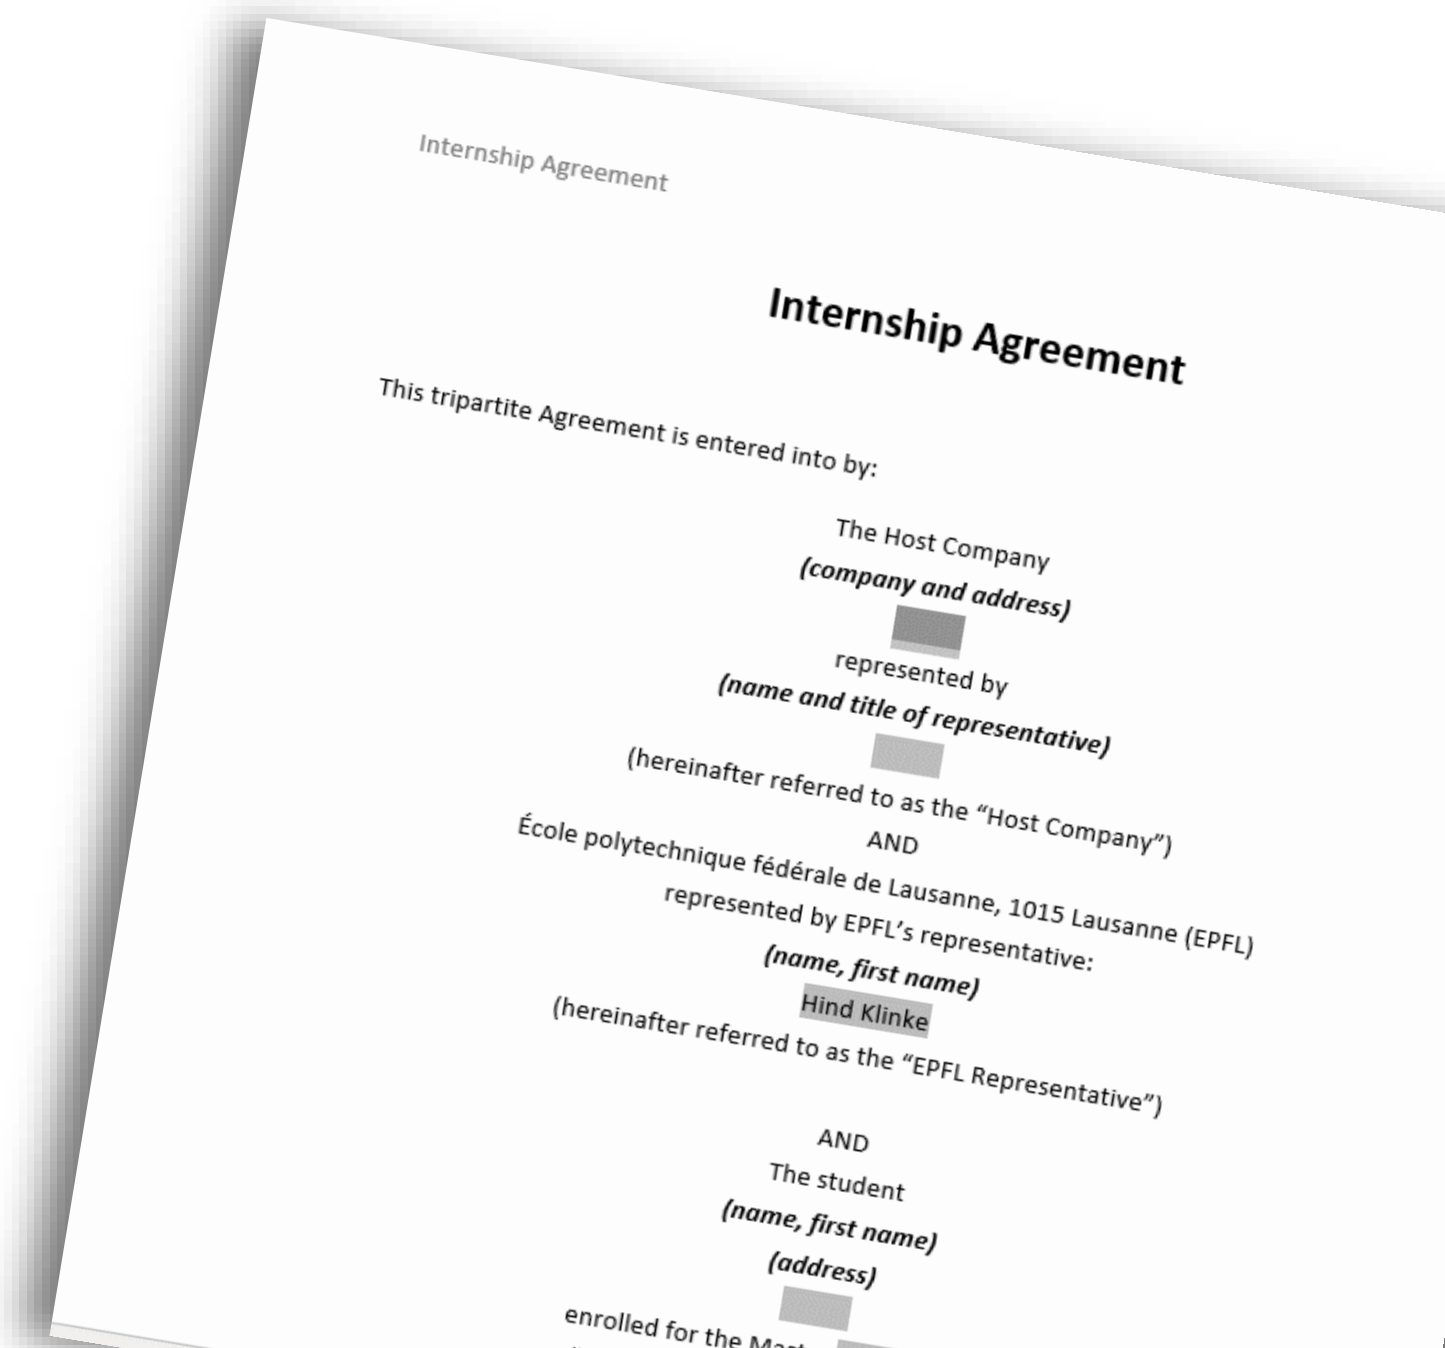

- EPFL proposes 5 modules of 1h45:
  - Understanding and convincing recruiters
  - The CV sections
  - The motivation letter
  - The Job interview
  - Communication and organization at work

Each course will be given in English.

Information and mandatory registration here: <https://epflcareer.ch/en/>

# Internship agreement

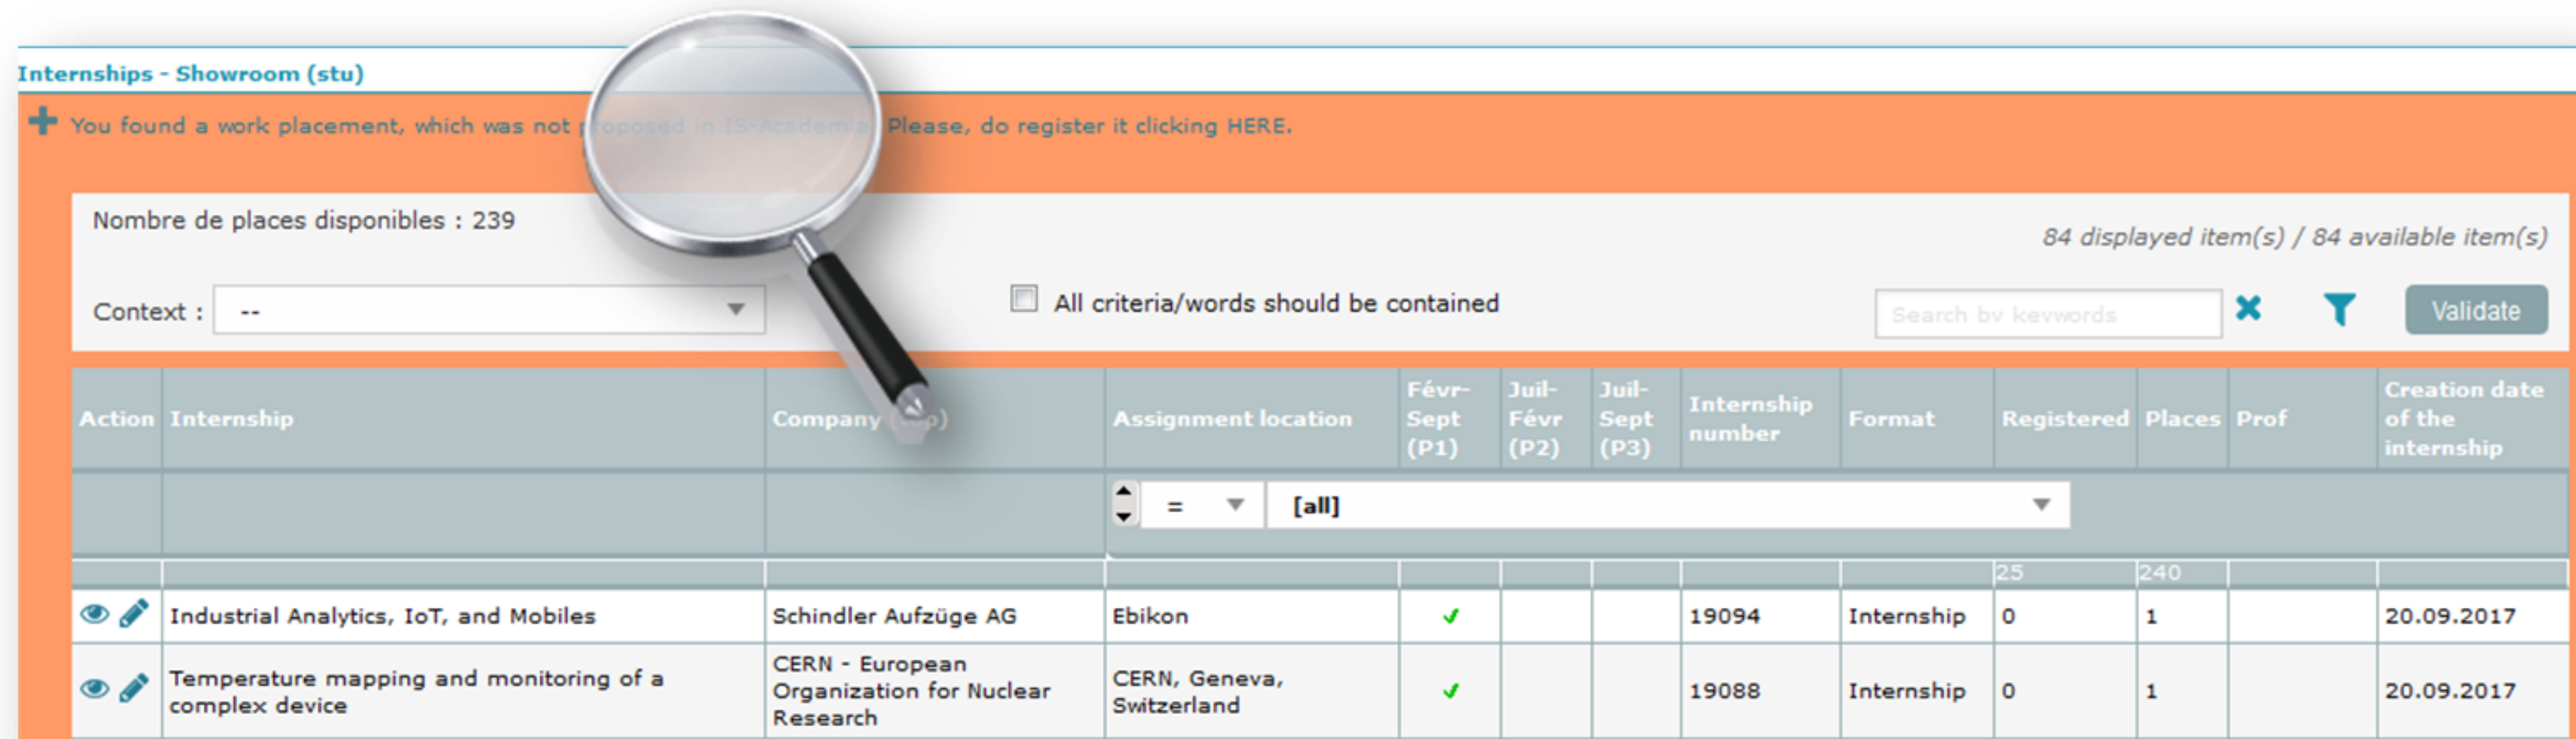

- The [internship agreement](#) specifies the commitments and responsibilities of EPFL, the company and the internship student.
- This agreement must be signed for all engineering internships.
- No other tripartite agreement involving EPFL will be signed by the section.
- Alternative contract proposed by the company and signed only by the student are acceptable in some cases, but the students must carefully read and comply with the content (IP issues, confidentiality, insurances and especially non-competition clauses).
- The company must accept to fill out the EPFL evaluation report at the end

# Mandatory: Register internships on ISA

- Submit a short but detailed description of your internship to SNX
- Once you have signed the tripartite internship agreement, enter your project details on the internship portal by creating a new internship proposal, and upload a pdf copy of the agreement.

Internships - Showroom (stu)

+ You found a work placement, which was not proposed in IS-Academia. Please, do register it clicking [HERE](#).

Nombre de places disponibles : 239 84 displayed item(s) / 84 available item(s)

Context : --  All criteria/words should be contained

Action	Internship	Company	Assignment location	Févr-Sept (P1)	Juil-Févr (P2)	Juil-Sept (P3)	Internship number	Format	Registered	Places	Prof	Creation date of the internship
				=	[all]					25	240	
	Industrial Analytics, IoT, and Mobiles	Schindler Aufzüge AG	Ebikon	✓			19094	Internship	0	1		20.09.2017
	Temperature mapping and monitoring of a complex device	CERN - European Organization for Nuclear Research	CERN, Geneva, Switzerland	✓			19088	Internship	0	1		20.09.2017

# Update your FRAC

In case your internship is done during an academic semester, make sure to update your **FRAC** according to your status:

- Semester: (choose the right one: MA1; MA2; MA3)
  - Status : Internship (authorized by the section)
  - Mention in the comments « SCS»
- 
- If you take courses in parallel to your internship, your FRAC status should be «present»

# Anticipate !

- A change of residence or relocation might be necessary
- Time consuming formalities might be required:
  - Confirm an internship
  - Visa, Work authorization and Residence permit (typically 4-8 weeks)
  - Collection of the signatures of the internship agreement
  - New validation of your passport
  - ...
- It is your responsibility to settle these formalities prior to the Internship beginning

# During and after the internship

- In case of problems (accident or illness, personal problems, conflict with supervisors, ...), contact urgently SNX
- No written report of the student is requested by EPFL, but can be requested by the company.
- To validate your internship, an evaluation form has to be filled out by the student and the supervisor in the company (sent out 2 weeks prior to ending).

# Evaluation form

The evaluation is more focused on the soft skills than technical knowledge

Application of scientific and technical knowledge

Planning and management of work tasks

Integration in the professional world

Communication

Independence

	E	G	S	I	N	Comments
<b>Application of scientific and technical knowledge</b>						
Technical skills and knowledge						
Ability to resolve complex problems						
Mastery of domain-specific methodologies						
<b>Planning and management of work tasks</b>						
Definition of work objectives and management of priorities						
Evaluation of resources required						
Work planning, monitoring of activities, and management of emergent issues						
<b>Integration in the professional world</b>						
Respect for the organizations procedures/ rules and for their profession's ethical codes						
Capacity to work in teams						
Quality of the work delivered						
<b>Communication</b>						
Written communication (structure, clarity, coherence of reasoning)						
Oral communication (clarity, reasoning, self-confidence)						
Interpersonal skills and engagement, including in a multicultural context						
<b>Independence</b>						
Ability to present and defend her/his own ideas						
Capacity to access sources of information and to evaluate them						
Capacity to self-evaluate and to respond constructively to feedback						
<b>Overall Evaluation</b>						

# Mandatory Steps for a 2-6 month internship

- Find an internship position and in case you have found it by yourself, without using the IS-A portal, have the subject validated by your section deputy.
- Cancel all ongoing applications by gently notifying the companies. This step is extremely important to keep a good relationship with future employers.
- Transmit [internship agreement](#) to the employer and have it filled out and signed by the employer, you and [SNX](#).
- If you are a non-swiss/EU citizen, ask the company to request a work authorization for the duration of the internship.
- Once all the details of your internship have been settled, enter or edit the details of your internship on the IS-A internship portal. Upload a copy of the signed internship agreement.
- If your internship takes place during an academic semester, make sure to update your FRAC
- At the end of the internship, fill out the evaluation report that will be sent to you by e-mail. The evaluation procedure starts 2 weeks prior to the official ending of the internship. Both the student and the supervisor will fill out an evaluation report.

# Best practice to set up a master thesis in industry

Companies get in touch with research labs to propose master thesis topics

Companies can hire students for internship proposals and accept the format change to master thesis projects without involving a Professor

Compatibility with academic calendar

IP owner(s)

Confidentiality

Eligibility of candidate for master thesis

Students contact professors of their section to ask for existing industrial projects

Students apply for internships on the IS-A portal and have it validated as master thesis projects by the company without involving the supervising professor

Professors and teachers propose master thesis projects with known partner companies  
Professors and teachers evaluate the academic content of proposals from companies before accepting it as master thesis projects

Professors and teachers evaluate the academic content of student proposals without interacting with the host company

# Ideal Scenario for Master Projects in industry

Company has an idea for a master thesis project

Company discusses the project with a Professor

Company submits the proposal on the EPFL portal

Project starts under co-supervision by company and professor

Student applies for the project through the portal and gets accepted by the company

# Master thesis in industry – offers on the internship portal

# Your start-up as substitute to a master thesis in industry?

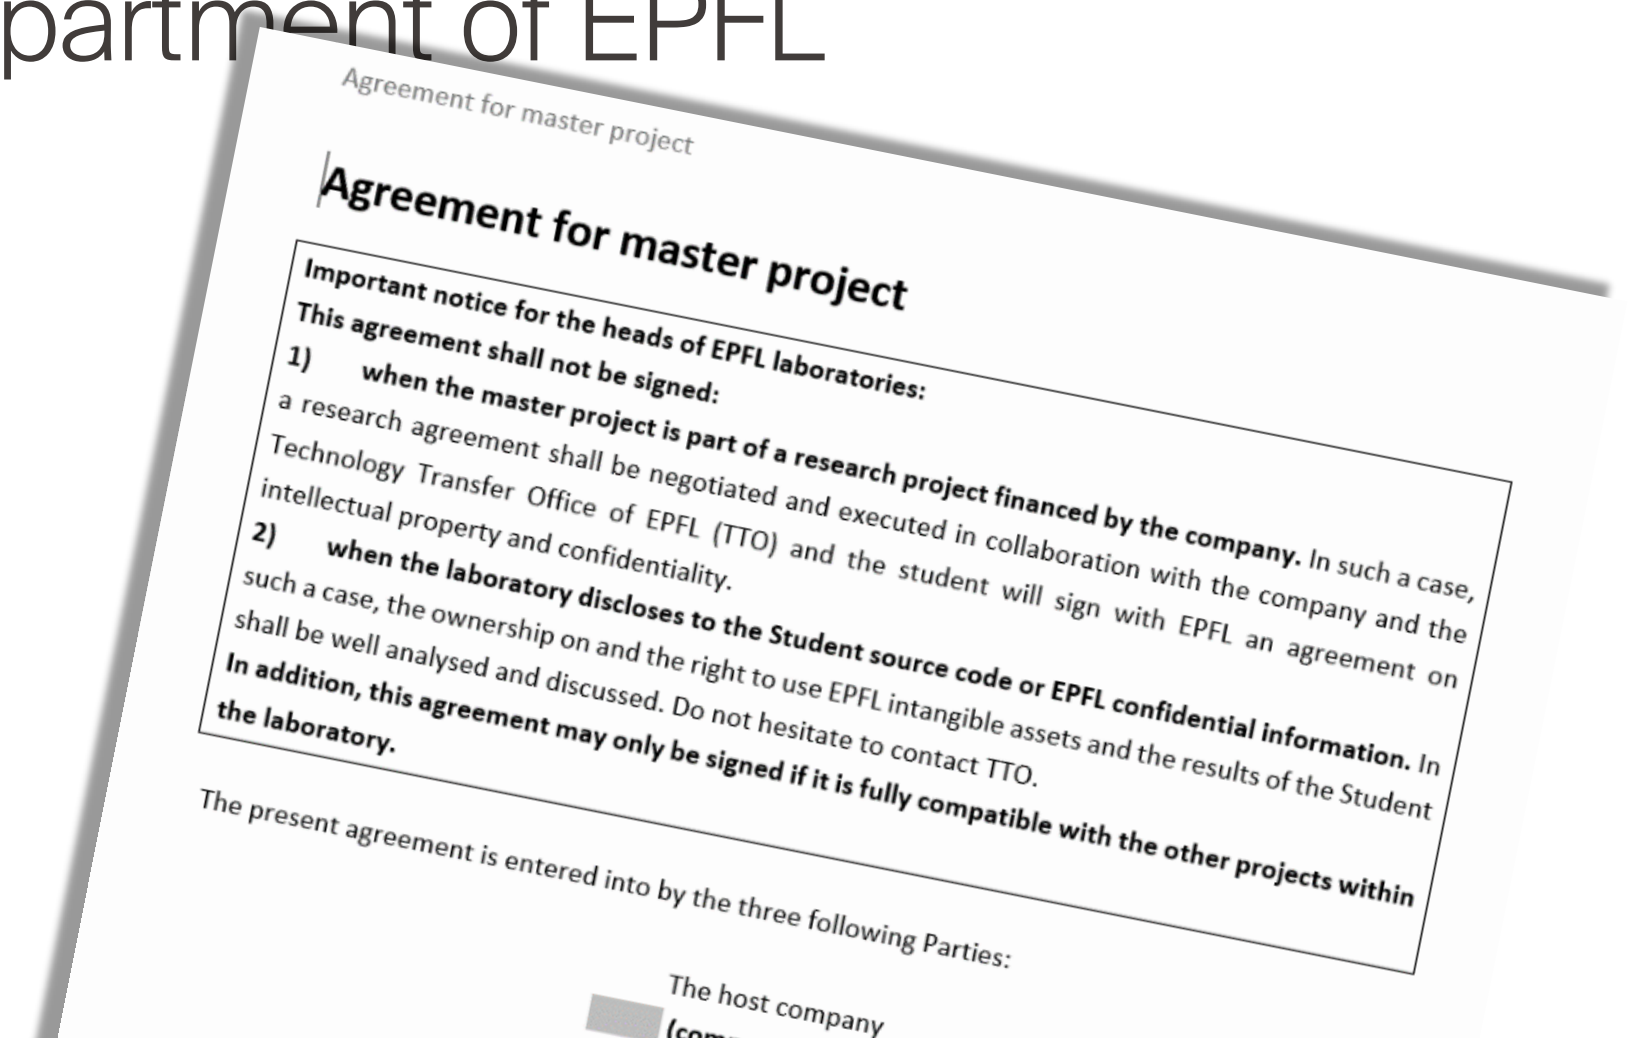

- A few students will be able to undertake their master projects in industry, at the EPFL Innovation Park to work for their own startup.
- Projects will be co-supervised by a mentor from the Vice Presidency for Innovation and a professor from the section
- This opportunity will be offered to 3-4 projects per year. Students will have to go through a selection process, start by contacting [pdm-eip@epfl.ch](mailto:pdm-eip@epfl.ch)
- More information about the program could be found here:
  - <https://www.epfl.ch/innovation/startup/students/master-project-in-your-startup/>

# Master project agreement

- The master thesis agreement (access for teachers only) specifies the commitments and responsibilities of the supervising teacher, the company and the student.
- This agreement can be signed upon request of the teacher or the company
- It defines IP and confidentiality aspects for any master thesis in industry without existing collaborations.
- It allows the academic supervisor to have access to the results of your work without having to sign an NDA.
- As it is not mandatory, amendments and changes requested by companies won't be accepted by the internship coordination or the legal department of EPFL

**Making a master project in the industry does not exempt you from the mandatory internship**

# Mandatory Steps for a Master project in Industry

- Find a master project in industry by contacting the professors of your section.
- A master subject can also be found through the IS-A Internship portal. In this case, it is mandatory to find a professor willing to supervise you before you accept the offer from the company.
- All administrative details of your master project in industry have to be settled between the employer and the professor supervising your work. A special Master project agreement can be signed on request by the supervising professor or the partner company.
- Once all the details of your Master project have been settled, register your project in your study plan.
- Update your FRAC
- [General information](#) about Master's Projects

# Information and contacts

- For additional information, please visit the internship pages of SNX:
  - <https://www.epfl.ch/schools/sections/neuro-x/industry-internship/>
- EPFL webpage:
  - <https://www.epfl.ch/education/studies/en/rules-and-procedures/internships/>
- Depending on your inquiry, you can contact the following persons:

Hind Klinke  
Section deputy SNX  
Internship Coordinator

Emilie Thévoz  
Administration SNX

# Questions ?

Thank you for your attention  
And best of success for your internship  
campaign!
