

Course selection

The official registration for the courses and for the project in the IS-Academia system

For coaching purpose, you are asked to make a list of all the courses you plan to take during the Minor. The total should be minimum 30 credits (including Minor project, 10 ECTS).

This list must be approved by the responsible of the Minor program.

This list can be updated later if you change your selection or if one course is not available. In this case the updated plan should be sent again.

Name, first name:	
Section:	
Date:	

Title of the course	<i>place a X on the semester of the course →</i>	Sem. MA 1	Sem. MA 2	Sem. MA 3	Nb of credits
Minor project					10
Total :					

For the minor project :

- You should contact laboratories of interest and define the project topic and planning with the selected laboratory
- A project description must be prepared with the project supervisor (use the project description form)
- The project registration is formally done through the IS-Academia system
