AUTHORIZATION FOR ELECTRONIC PUBLICATION OF A SSV MASTER PROJECT ON INFOSCIENCE

The author and director of the present SSV master project are aware that since 2008 the Section des Sciences & Technologies du vivant has decided to reference every master project carried out by its students in the EPFL institutional archive Infoscience.

Infoscience is the institutional archive of the EPFL, a database aimed to archive and show all scientific publications (articles, conference papers, proceedings, books, book chapters, posters, reports, etc.) produced by EPFL laboratories – <http://infoscience.epfl.ch>.

References compulsorily include:

- Title
- Name of the author
- Name of the director
(EPFL supervising professor or scientist)
- Abstract
- Name of the EPFL laboratory
(in which the project was conducted)
- Name of the host laboratory*
- Name of the advising scientist
(if different to director)
- Year

** For exchange projects only*

In addition to the references, the author and director of the present SSV master project are aware that Infoscience also offers the opportunity to give free access to the fulltext (.pdf file) and declare to be willing to use this opportunity for the present SSV master.

The author and director of the SSV master project ...

Title: _____

... hereby declare to authorize the fulltext publication of their master on Infoscience.

Director's name: _____

Author's name: _____
